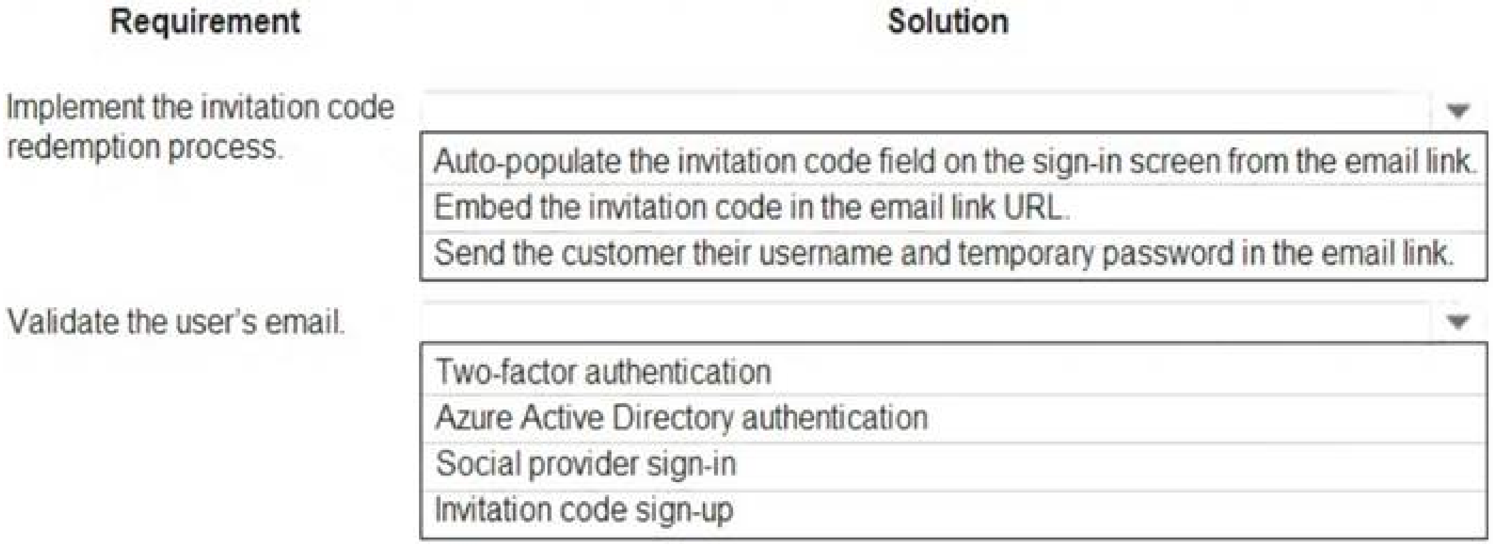
Exam Questions PL-200

Microsoft Power Platform Functional Consultant

https://www.2passeasy.com/dumps/PL-200/

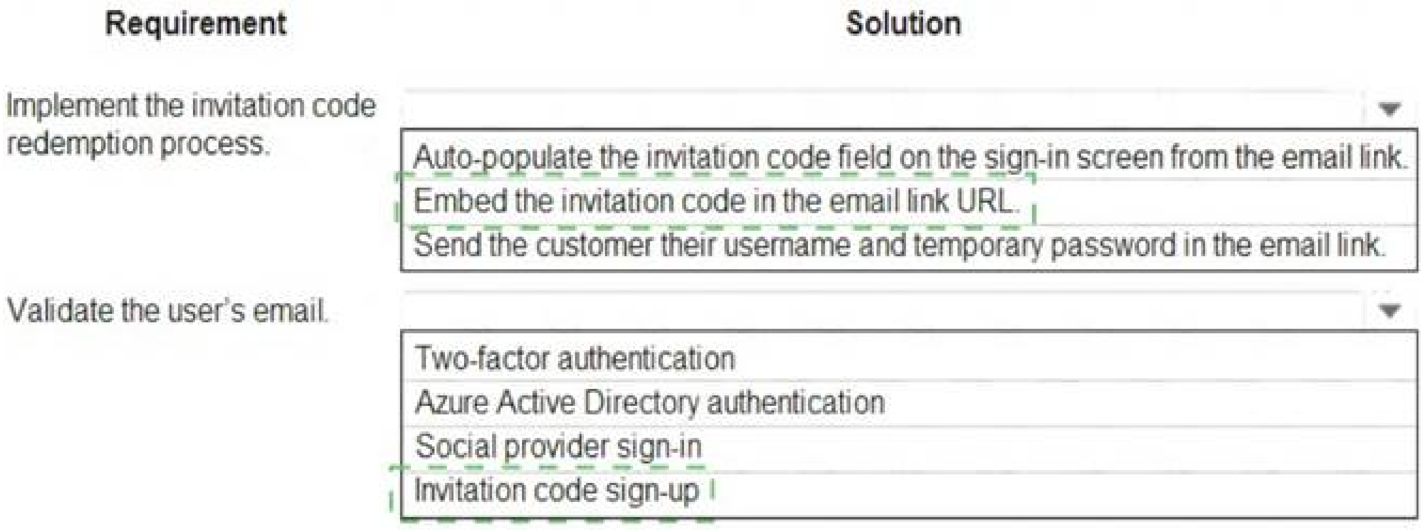
NEW QUESTION 1
- (Exam Topic 1)
You need to design the resort portal's email registration process.
Which solutions should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 2
- (Exam Topic 1)
You need to create the FAQ solution content What should you do first?

A. Al Builder
B. Suggest topics
C. Automate
D. Trigger phrases

Answer: B

Explanation:
You need to make sure there are three main steps need to do while doing import FAQ and add the topic to your bot application.
- Import Suggested Topics from FAQ webpage.
- Add a topic.
- Enable the topics Reference:
https://social.technet.microsoft.com/wiki/contents/articles/53820.power-virtual-agents-faq-chatbot.aspx

NEW QUESTION 3
- (Exam Topic 1)
You need to embed the business card solution in the check-in app. What you use?

A. control
B. Button control
C. Custom component
D. Al Builder component

Answer: D

NEW QUESTION 4
- (Exam Topic 2)
You need to assign 10 percent of the Qualification records to the QV queue through table configuration by using a Power Automate flow.

What should you do?

A. Create an autonumber column on the Qualification table and assign its qualification records if the number cleanly divides by 10.
B. Create a calculated column on the Service Request table that sums the number of qualification records, generates a random number between zero and the number from the new field, and assigns each qualification record if the number generated is 10 percent or less of the value of the new field.
C. Create a roll-up column on the Service Request table that is the count of qualification records, generates a random number between zero and the number from the new field, and assigns each qualification record if the number generated is 10 percent or less of the value of the new field.
D. Create an autonumber column on the Service Request table and assign its qualification records if the number cleanly divides by 10.

Answer: B

NEW QUESTION 5
- (Exam Topic 2)
You need to implement the requirement for the VP of sales. What should you do?

A. Use a test account with a base security role with QV security added.
B. Add the System Administrator security role to your user account.
C. Use a test account with only QV security added.
D. Add QV security to your user account.

Answer: A

Explanation:
A VP of sales requires a test environment to demonstrate to potential clients the security policies that are included in their initial offering.
Currently, testing the new QV functionality outside the development environment is not possible due to corporate security policies requiring the same security role across all environments.
Note: One of the security best practices in Dynamics 365 is to use the base security role as a baseline and apply that role to all Users. The base security role will include all the common/basic permissions that are
required to have access to the system.
To set up the base security role for the first time
- create a new empty security role.
- add the minimum privileges required to access the system.
- add the privileges required for the basic functionalities.
- test the role with the test user account.
- add the permissions to the entities that all users can access (e.g. reference data).

Reference: https://linnzawwin.blogspot.com/2020/07/minimum-privileges-required-to-log-in.html

NEW QUESTION 6
- (Exam Topic 2)
You need to capture the Date Completed value from the website using a desktop flow. Which method should you use?

A. Use optical character recognition (OCR) on the screen to locate and extract the value.
B. Display an input dialog and prompt the user to enter the value.
C. Extract the value from the window the browser is using.
D. Retrieve the value from the HTML element in the webpage.

Answer: C

Explanation:
Record the name of the QV team member who performed the work and the date completed.

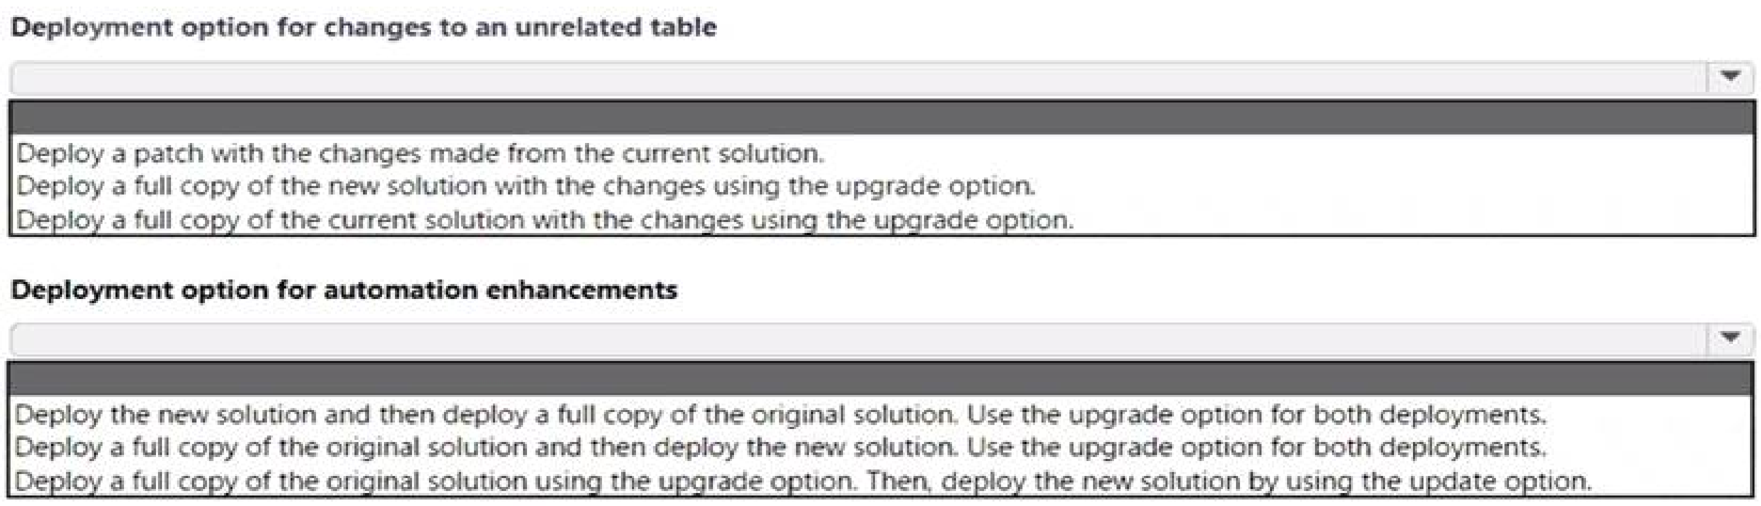
NEW QUESTION 7
- (Exam Topic 2)
You need to set up the new service request completion process.
Which two components should you include in the solution? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. connection reference
B. business process flow
C. Power Automate flow
D. connection

Answer: AC

Explanation:
Reference: https://docs.microsoft.com/en-us/power-apps/maker/data-platform/create-connection-reference

NEW QUESTION 8
- (Exam Topic 2)
You need to coordinate updates and deployment for managed solutions containing completed work without disrupting the system.
What should you do? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Deploy a patch with the changes made from the current solution. Scenario:
The Onsite Visit managed solution has a table that is not in the Verification Process Automation managed solution. This table must be upgraded prior to the go-live date without the other shared components.
Box 2: Deploy a full copy of the original solution using the upgrade option. Then, deploy the new solution by using the update option.
Scenario: All components required for the verification process must be included in a new solution. Corporate security requires that deployments to non-development environments must be automated using
service accounts.
Managed solutions are used to move customizations from the development environment to other higher-level environments. These solutions are created and maintained by the power users and provided to internal IT for deployment when they are ready.
Note:
Upgrade This is the default option and upgrades your solution to the latest version and rolls up all previous patches in one step. Any components associated to the previous solution version that are not in the newer solution version will be deleted. This is the recommended option as it will ensure that your resulting configuration state is consistent with the importing solution including removal of components that are no longer part of the solution.
Update This option replaces your solution with this version. Components that are not in the newer solution won't be deleted and will remain in the system. This option is not recommended as your destination environment will differ in configuration from your source environment and could cause issues that are difficult to reproduce and diagnose.
Reference: https://docs.microsoft.com/en-us/power-apps/maker/data-platform/update-solutions

NEW QUESTION 9
- (Exam Topic 3)
A company collaborates by using Microsoft Teams.
You must create a Power Apps app directly from within a Teams channel. The app will be used by members of the channel to manage sales orders.
You need to create the app by using Dataverse for Teams. How should you create the app?

A. Create a canvas app by using a Power Apps personal app in Teams.
B. Create a canvas app by using the App Studio app.
C. Use the Power Apps web designer.
D. Create a model-driven app by using the App Studio app

Answer: B

Explanation:
You can create, edit, and delete canvas apps in Teams.
Note: With Power Apps Studio embedded in the Power Apps app in Teams and the new built-in data platform providing an easy-to-use, editable data table, you can quickly build apps based on custom data tables that are Teams-specific and scenario-specific.
Reference: https://docs.microsoft.com/en-us/power-apps/teams/create-first-app https://docs.microsoft.com/en-us/power-apps/teams/create-apps-overview

NEW QUESTION 10
- (Exam Topic 3)
You create a Power Apps app.
The app must be able to display a list of records that are sorted by category. The app must also expand or hide the list by subtopics.
You need to configure the app. Which tool should you use?

A. card
B. expression
C. Power Bl dashboard
D. gallery

Answer: C

NEW QUESTION 10
- (Exam Topic 3)
You are a Dynamics 365 administrator for a veterinarian clinic.
On the client appointment form, there is a dropdown field for clients to select their type of pet If a client selects the option Other, the veterinarian wants a text field to appear so that additional details can be added.
You need to create a dynamically visible field. What should you configure?

A. filed visibility on the form
B. business process flow
C. workflow
D. business rule

Answer: D

Explanation:

References:
https://www.sherweb.com/blog/dynamics-365/configuring-business-rules-within-microsoft-dynamics-365-crm/

NEW QUESTION 12
- (Exam Topic 3)
A company uses Power Apps with Microsoft Dataverse.
The company enables auditing on the Dataverse database. The company tenant reaches the maximum storage capacity.
You need to delete some auditing data.
Which three deletion options should you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

A. by table
B. by record
C. between two specified dates
D. by column
E. older than a specified date

Answer: BCE

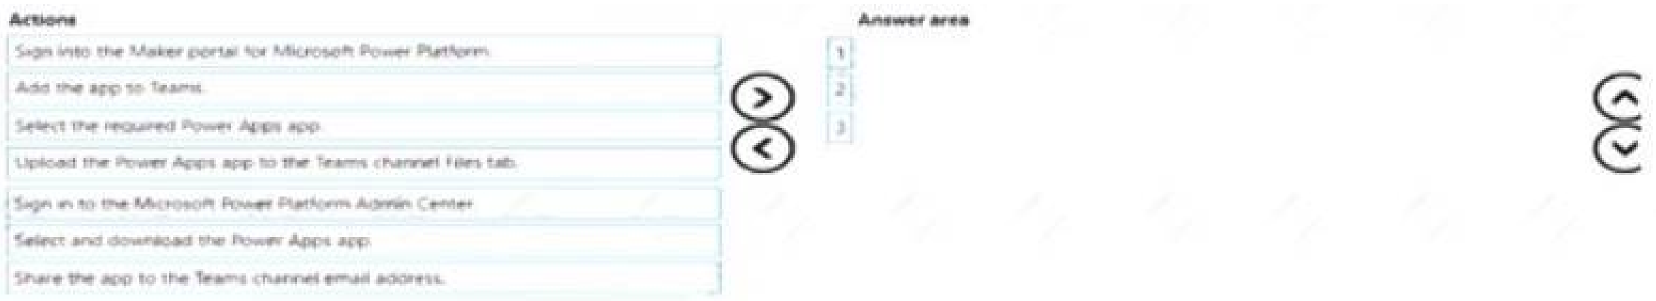
NEW QUESTION 15
- (Exam Topic 3)
You create a Power Virtual Agents chatbot to reduce the number of incoming support calls that require a live person.
The chatbot does not direct users to the correct information. You determine that this is because the chatbot is not able to identify which product a user is referring to in a conversation.
You need to present a list of products so that users can select the correct product. What should you create?

A. Table
B. Variable
C. Slot filling
D. Entity

Answer: C

Explanation:
Slot filling is a natural language understanding concept that means saving an extracted entity to an object. However, in Power Virtual Agents, slot filling means placing the extracted entity value into a variable.
Reference: https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling

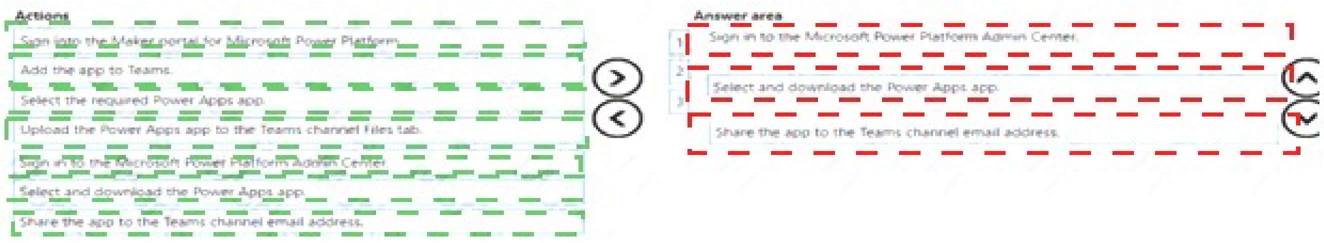
NEW QUESTION 20
- (Exam Topic 3)
A company creates a canvas app.
The company plans to make the app available in Microsoft Teams. Only employees will be allowed to use the app.
You need to add the app to Teams.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 22
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:

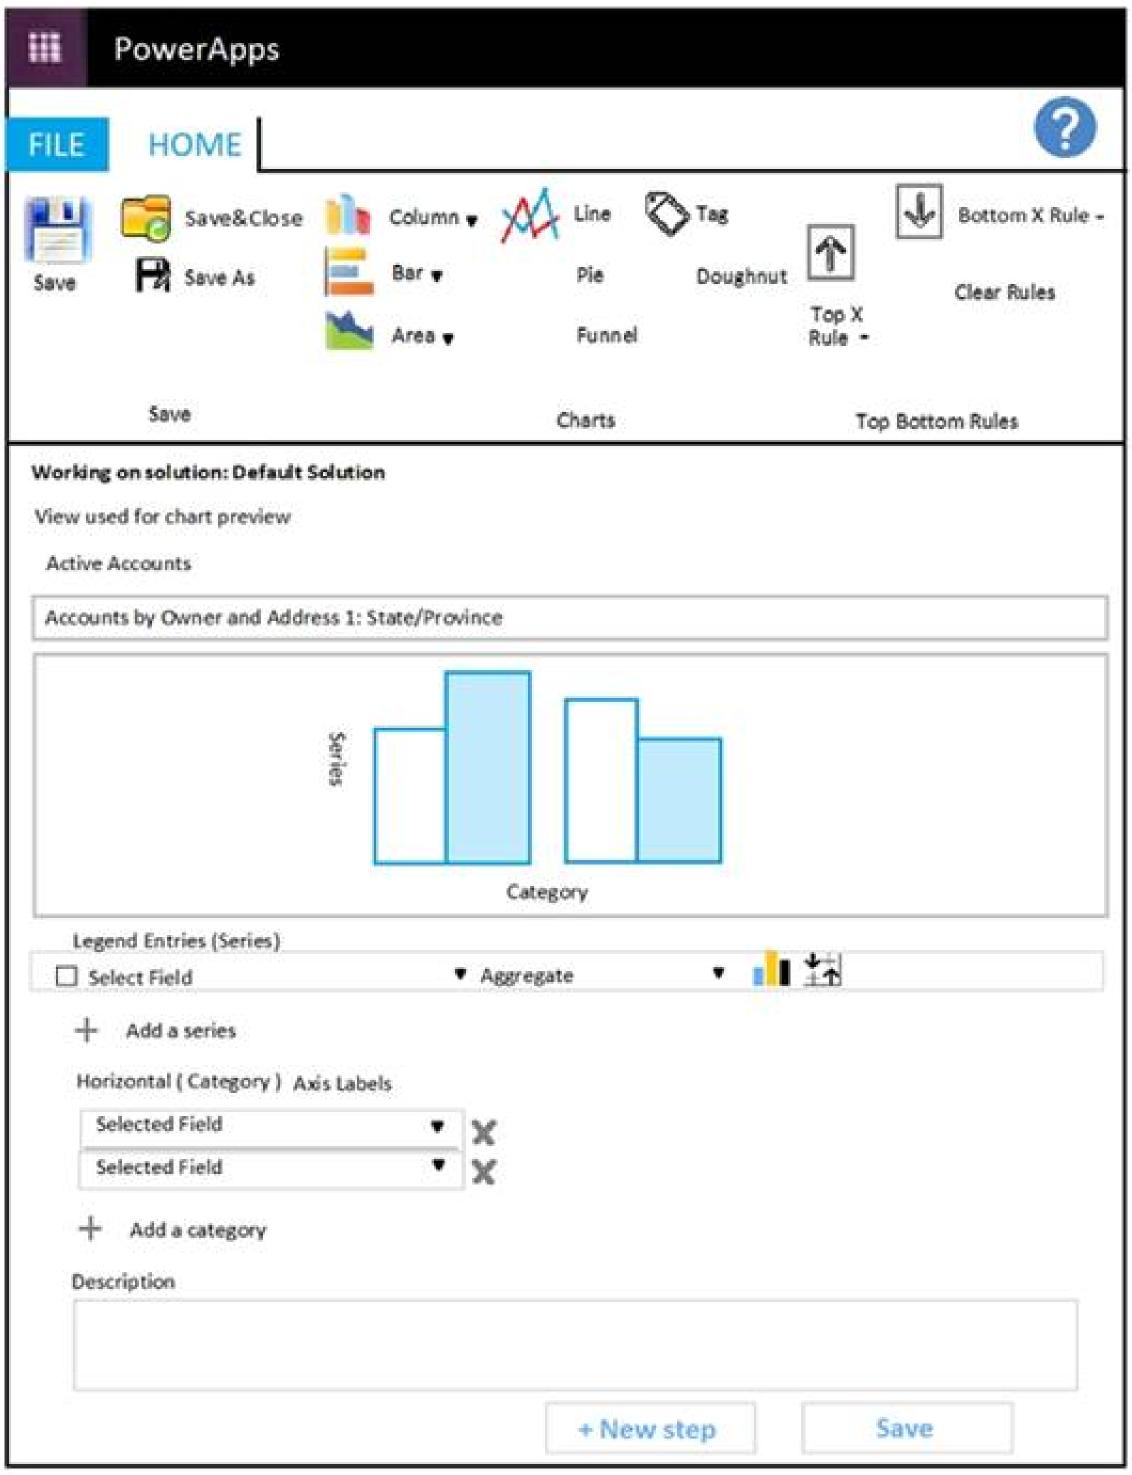
- 0 - 17
- 18 - 25
- 26 - 35
- 36 - 55
- 55 - 100

You need to configure the chatbot to ask a question that can be used to determine the correct age group. Solution: Create a custom Age group entity and synonyms for each individual age in the corresponding item.
Use Age group for Identify in the question.
Does this meet the goal?

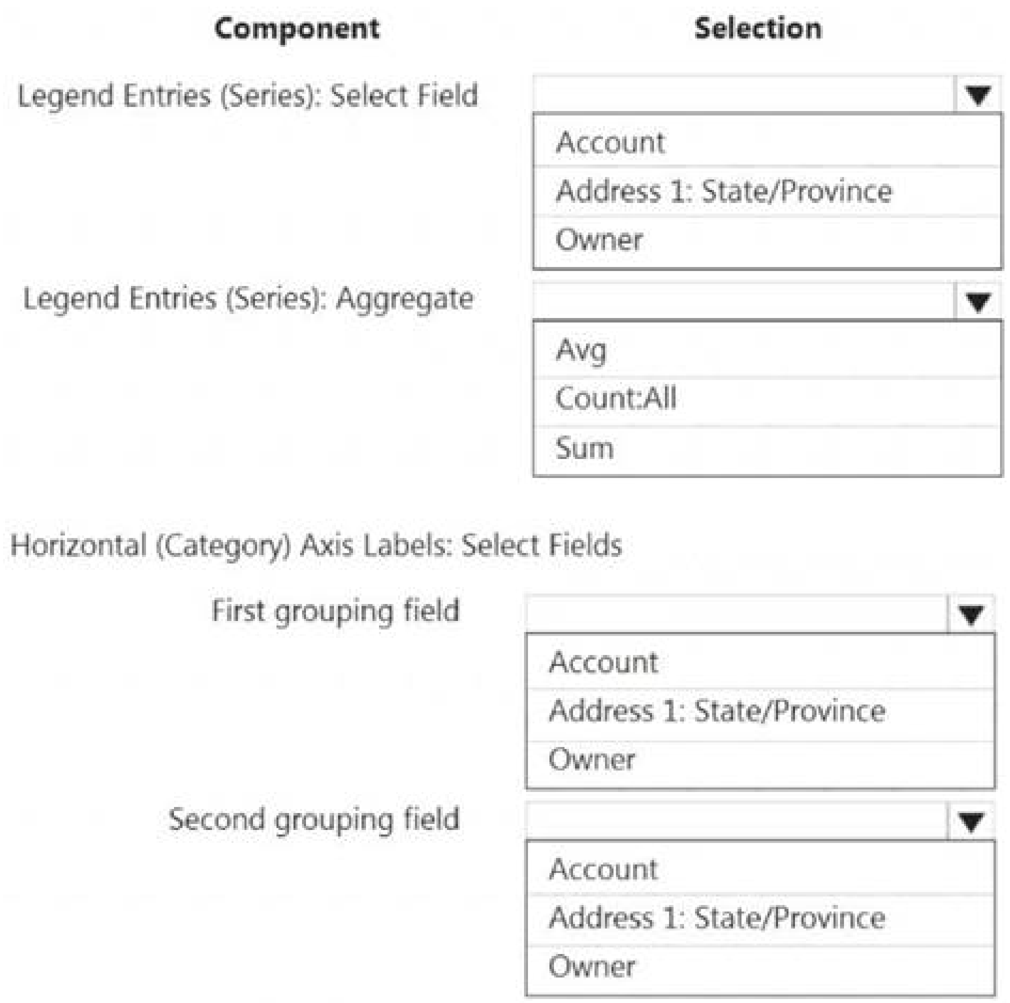
A. Yes
B. No

Answer: A

NEW QUESTION 23
- (Exam Topic 3)
You need to create a system chart for the Account entity.
The chart must display a count of accounts grouped by owner and then display the accounts by Address 1: State/Province for each owner. You begin to configure chart options as shown in the image below.



How should you complete the configuration? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point. The chart must display a count of accounts grouped by owner, and then display the accounts by Address 1 to State/Province for each owner.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated
Graphical user interface, text, application Description automatically generated

NEW QUESTION 28
- (Exam Topic 3)
You create a report by using Power BI Desktop and a Power BI dataset that is connected to Azure SQL Database.
Multiple groups of employees will use the report.
You need to ensure that each group of employees can see only data that pertains to their group. What should you do?

A. Create and assign file security profiles.
B. Create and assign Common Data Service security roles.
C. Create and assign roles by using row-level security.

Answer: C

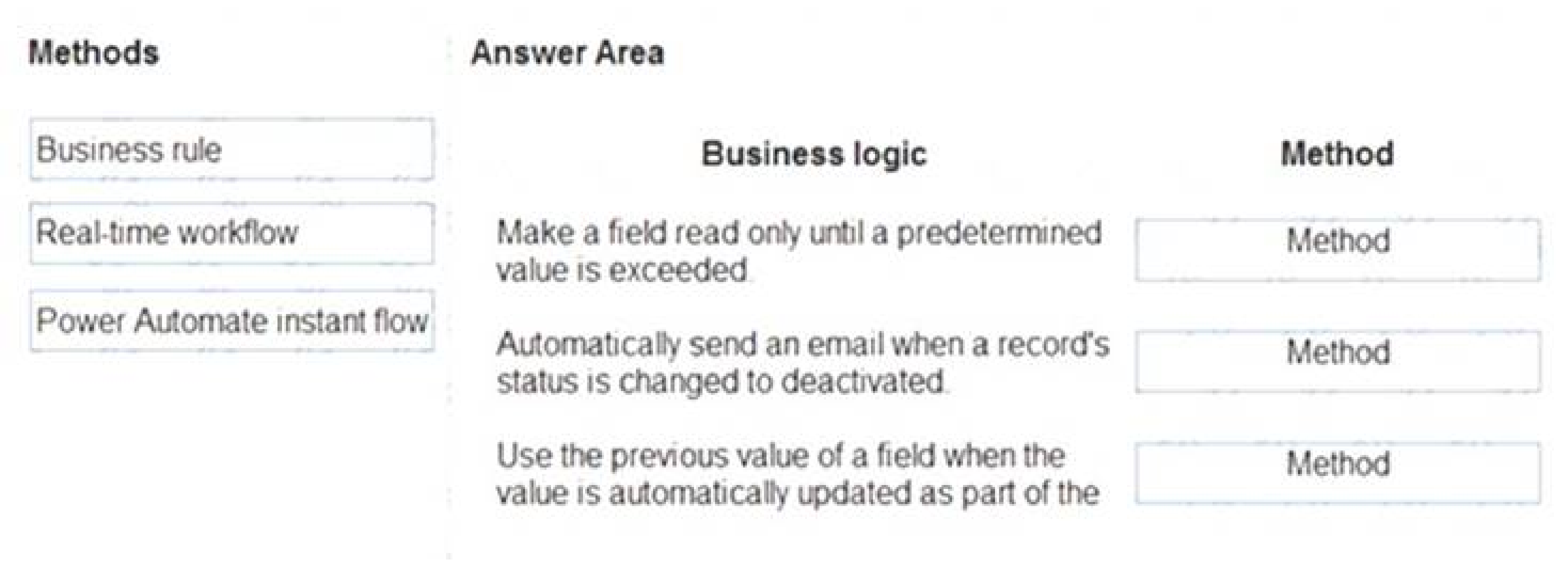
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-share-dashboards

NEW QUESTION 31
- (Exam Topic 3)
You have a canvas app.
The canvas app must store data in a variable that is available only to the current screen. You need to create the variable.
Which two functions should you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

A. Navigate
B. UpdateContext
C. Set
D. Collect
E. SaveData

Answer: AB

NEW QUESTION 32
- (Exam Topic 3)
You are implementing a model-driven app to support a new line of business. There are several places where automated business logic must be applied. You need to determine how to apply the business logic.
Which method should you use? To answer, drag the appropriate methods to the appropriate business logic statements. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

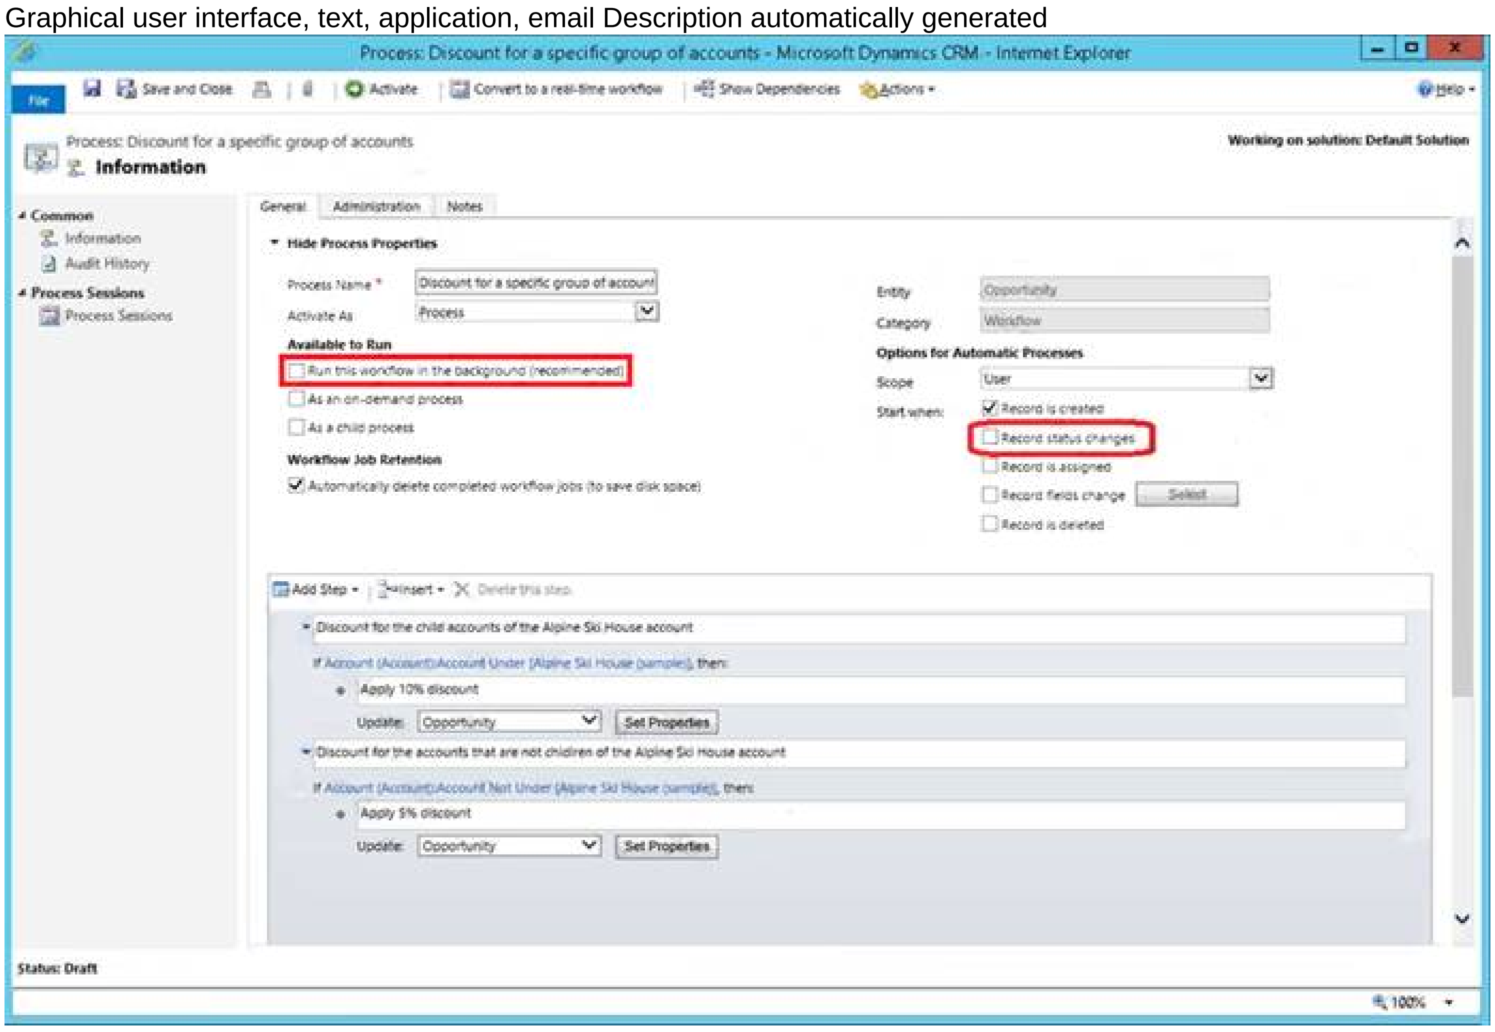


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated
Box 1: Business rule
By combining conditions and actions, you can do any of the following with business rules:
- NSE5_FSM-5.2 Set column values
- Clear column values
- Set column requirement levels
- Show or hide columns
- Enable or disable columns
- Validate data and show error messages
- Create business recommendations based on business intelligence.

Box 2: Real-time workflow Real-time workflows:
Graphical user interface, text, application, email Description automatically generated



Box 3: Power Automate instant flow
Instant Flows don't have a trigger in the same way as the Automated flow. Instead, they are triggered manually or on-demand, such as a user clicking a Flow button in the mobile app.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-business-rules-recommendations-a https://docs.microsoft.com/en-us/powerapps/maker/data-platform/configure-workflow-steps https://carldesouza.com/difference-between-instant-automated-and-scheduled-flows-in-power-automate-and-ho

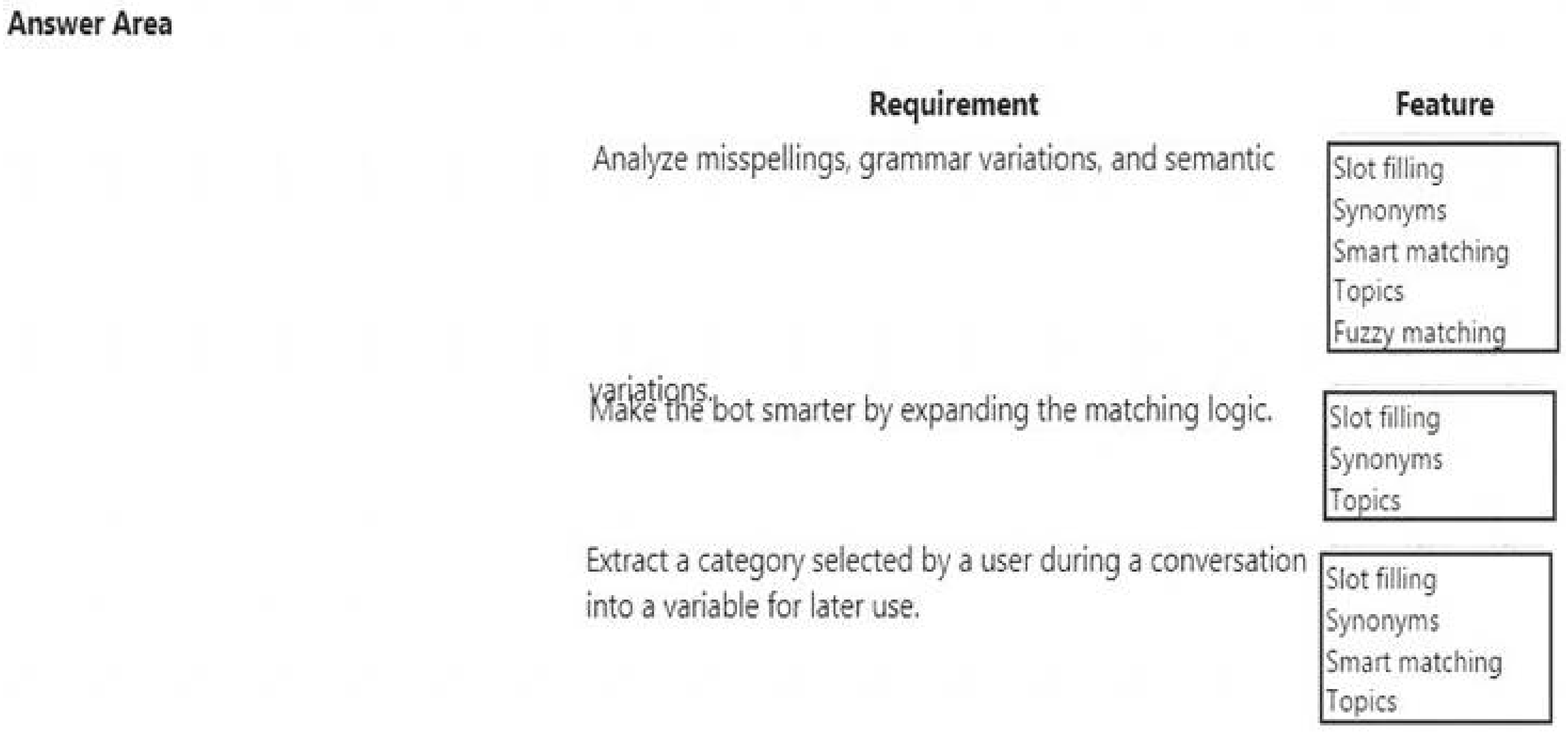
NEW QUESTION 35
- (Exam Topic 3)
You are creating a Power Virtual Agents chatbot for a Microsoft Power Platform power apps portal app. The job title of users must be stored automatically when users log in. The job title must always appear in the
chatbot.
You need to configure the job title functionality. Which mechanism should you use?

A. artificial intelligence
B. variable
C. entity
D. topic

Answer: B

Explanation:
After enabling the Authentication, you will now have access to Two variables, bot.UserDisplayName
bot.UserId
Reference:
https://powerusers.microsoft.com/t5/Power-Virtual-Agents-Community/Getting-User-Details-To-Use-In-Power

NEW QUESTION 40
- (Exam Topic 3)
You are designing a Power Virtual Agents chatbot for a store.
You need to teach the chatbot to acknowledge the store's product categories and the variations within specific categories.
You need to create custom entities to provide the chatbot with the knowledge of the product categories. Which features should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:

Smart match Synonyms Topic
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling

NEW QUESTION 41
- (Exam Topic 3)
You use Power Virtual Agents to create a bot that will answer and transfer help desk calls.
You create topics that contain nodes and functions. The company has the following requirements for the bot:
• When a caller states the word issue, help, or problem, the bot must respond with the question. "How can we help you today?"
• When the bot responds with the question, "How can we help you today?", the bot must provide the caller with the choices of hardware, software or other
• When the caller asks a question, the bot must save the response so that it can perform an action on the response.
You need to configure the bot.
Which nodes or functions should you use? To answer, select the appropriate options in the answer area.

Answer Area

Requirement	Node/Function
Caller states **issue**, **help**, or **problem**.	Trigger phrase Trigger phrase Question Message Action
Bot provides choices.	Question Action Question Message Variable
Responses are temporarily saved.	Identifier Action Variable Trigger Identifier

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Answer Area

Requirement	Node/Function
Caller states **issue**, **help**, or **problem**.	Trigger phrase Trigger phrase Question Message Action
Bot provides choices.	Question Action Question Message Variable
Responses are temporarily saved.	Identifier Action Variable Trigger Identifier

NEW QUESTION 45
- (Exam Topic 3)
A Company plans to send escalation emails to all customers with overdue invoices. You are creating a Microsoft Power Automate flow to determine whether to send an escalation email.
The system must send an alert for all invoices that are seven days or more overdue. You need to configure the flow.
Which expression should you use?

A. `TriggerEmail() = 'OverdueDate' >= 7;`

B. `'OverdueDate' >= '7'?'TriggerEmail()':false`

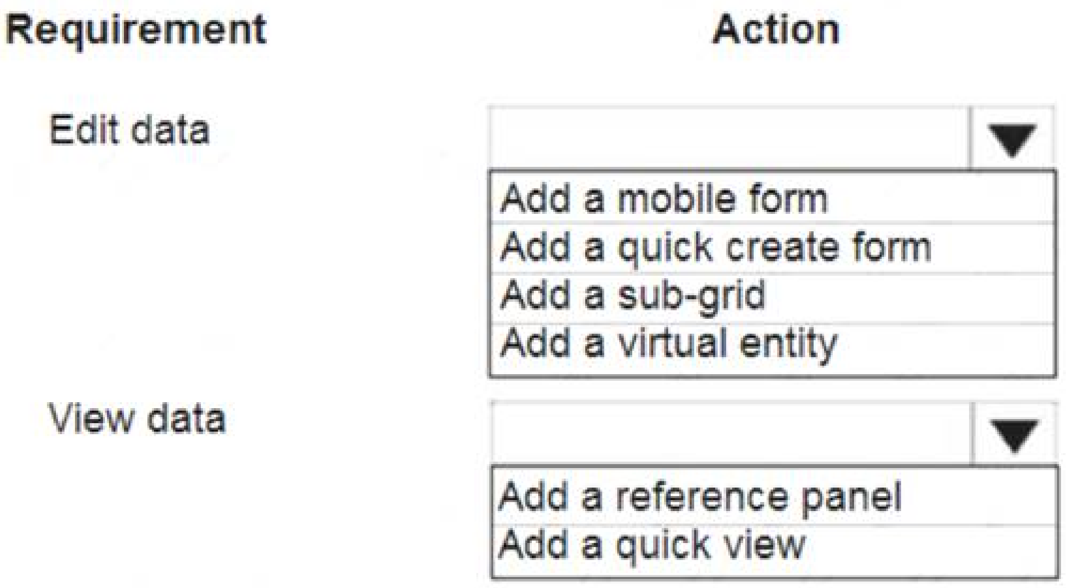
C. `@GreaterOrEquals(TriggerEmail()?['OverdueDate']: '7')`

A. Option A
B. Option B
C. Option C

Answer: C

Explanation:
Example: equals(triggerOutputs()?['body/PDFStatus/Value'],'Ready to Generate') Reference:
https://evolvous.com/microsoft-power-automate-trigger-condition/

NEW QUESTION 50
- (Exam Topic 3)
You are a Dynamics 365 Customer Service administrator.
Users report that the main form does not display data from other entities or allow them to edit data from other entities.
You need to embed information from other entities in the form and allow users to edit the data. Which actions should you perform? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

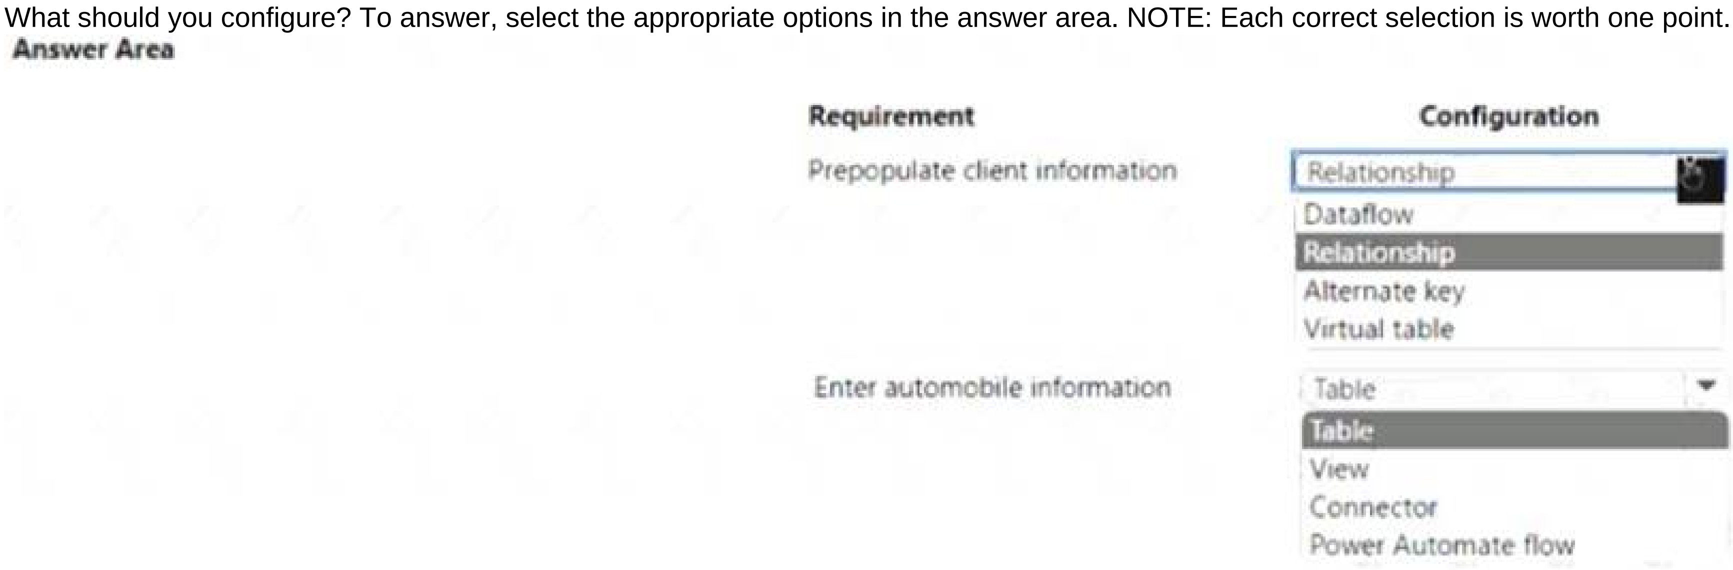


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, chat or text message Description automatically generated
Box 1: Add a quick create form
With quick create forms, your app can have a streamlined data entry experience with full support for logic defined by form scripts and business rules.
Box 2: Add a quick view
A quick view form can be added to another form as a quick view control. It provides a template to view information about a related entity record within a form for another entity record. This means your app users do not need to navigate to a different record to see the information needed to do their work.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-edit-quick-create-forms https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/customize/create-edit-quick-v

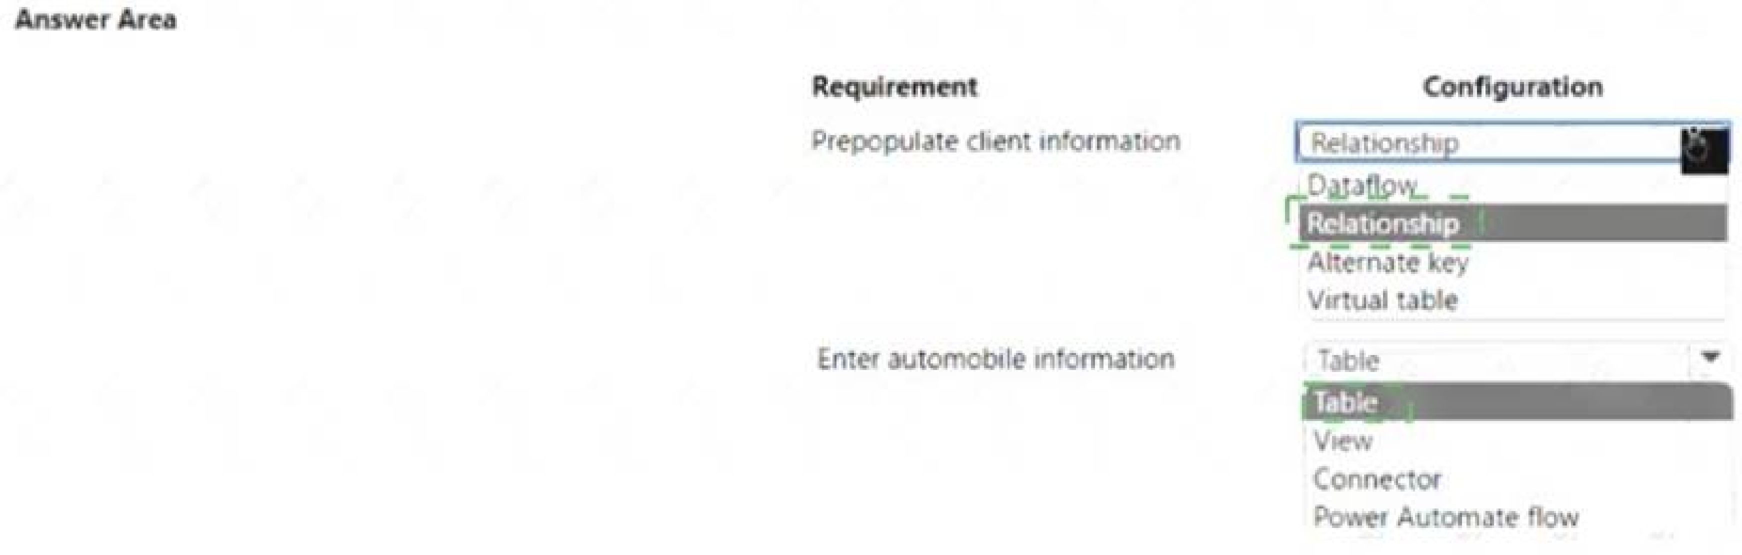
NEW QUESTION 55
- (Exam Topic 3)
You create a model-driven app for an automobile parts help desk.
A help desk agent uses a form to gather information about customers' automobiles in two custom tables. The names of the tables are Client and Automobile,
The form must prepopulate the following information about the customer from the client table:
• First name
• Last name
The agent must be able to type the following information about the automobile:
• Automobile make
• Automobile model
You need to implement the form.
What should you configure? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



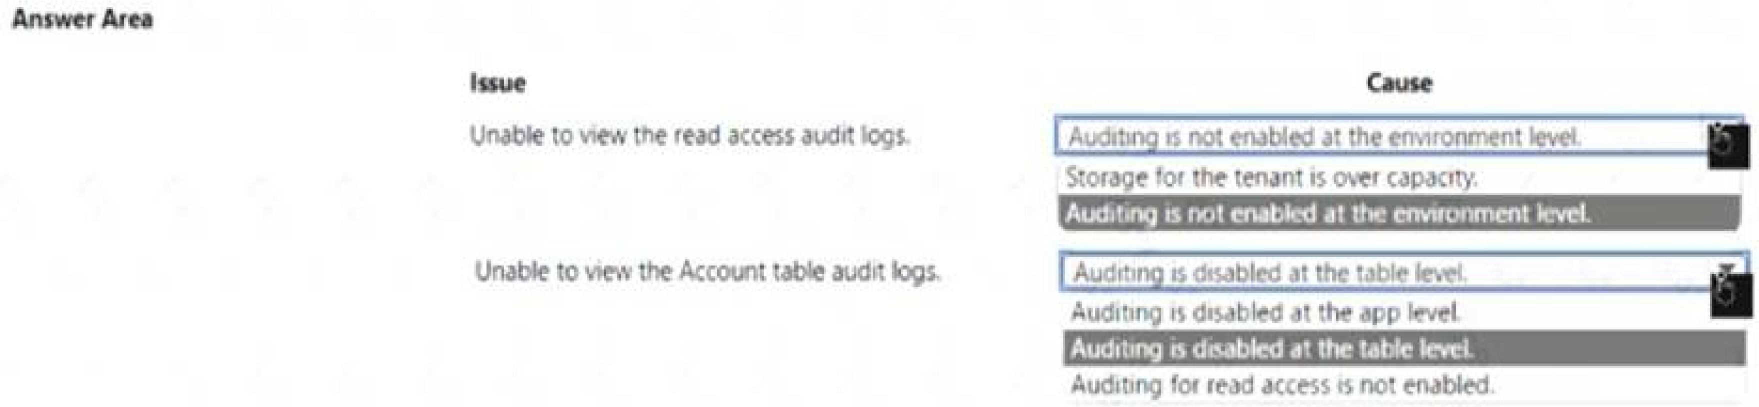
A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 60
- (Exam Topic 3)
A company uses Power Apps. You enable auditing in Microsoft Dataverse. Users report the following issues when viewing the audit logs:
• Unable to view the read access audit logs.
• Unable to view the Account table audit logs. You need to troubleshoot the issues.
What are the causes of the issues? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 65
- (Exam Topic 3)
A farm uses a canvas app to manage schedules for planting fields with crop seeds. The farm uses business intelligence to provide recommendations for schedule changes based on weather data.
You must implement a business rule that changes information for several forms in the canvas app based on business intelligence data.
You need to configure the business rule. Which scope should you use?

A. Table
B. All Forms
C. Form specific

Answer: A

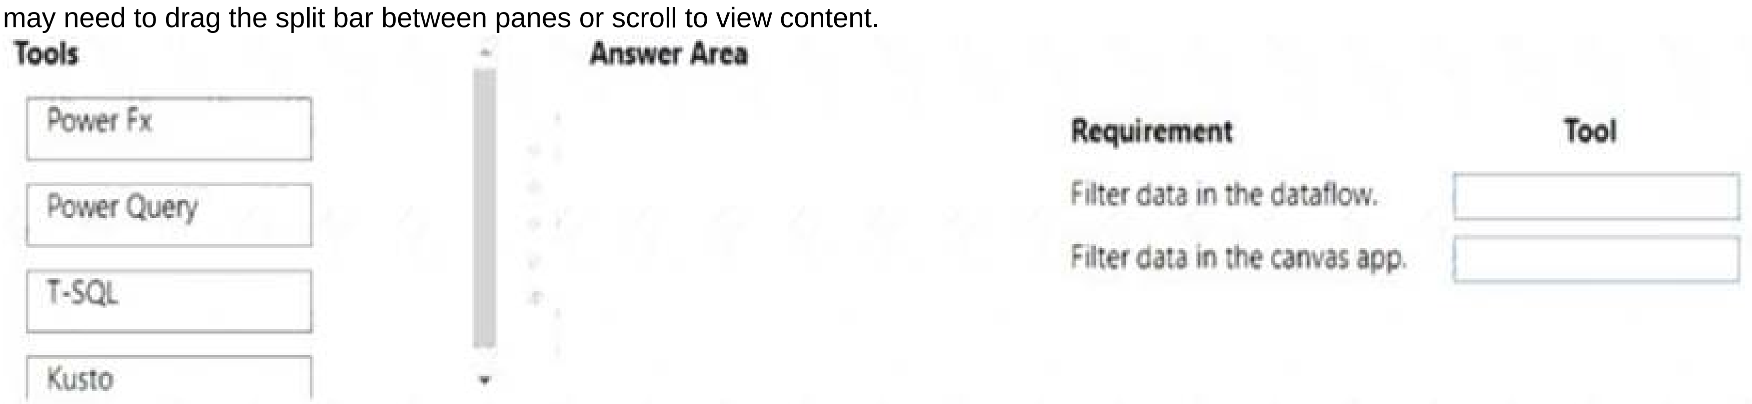
NEW QUESTION 68
- (Exam Topic 3)
A customer uses Power Apps to view and maintain their contacts that are stored in Microsoft Dataverse. Several columns must be configured to ensure the security settings for sales associates are view only. You need to configure the access restrictions.
Which component for field-level security should you use? TO answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated

NEW QUESTION 70
- (Exam Topic 3)
You create a canvas app that uses data from a Microsoft SQL Server database.
You use a dataflow to move some of the data from the database to Microsoft Dataverse. Users will filter the data by using the app.
You need to filter data in the dataflow and in the canvas app.
Which tools should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.



A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 71
- (Exam Topic 3)
You are a Dynamics 365 Customer Service system administrator. You create an app for the sales team. Members of the sales team cannot access the app.
You need to ensure that sales team members can access the app. Where should you configure app permissions?

A. Security Roles
B. Manage Roles
C. Dynamics administration center
D. Dynamics 365 home

Answer: B

Explanation:
References:
https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customize/manage-access-apps-security-r Manage access to apps by using security roles.
You can choose what users see and access from the My Apps page or the Customer Engagement home page by giving app access to specific security roles.

Users will have access to apps based on the security roles they're assigned to.
* 1. Go to Settings > My Apps.
* 2. In the lower-right corner of the app tile you want to manage access for, select More options (...), and then select Manage Roles.
* 3. Enter the following in the Manage Roles dialog box:
a) App URL Suffix
b) Roles
c) Select Save.
* 4. Refresh the My Apps page.
* 5. Go to the Apps Being Edited view, and publish the app again. Reference:
https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/customize/manage-access-app

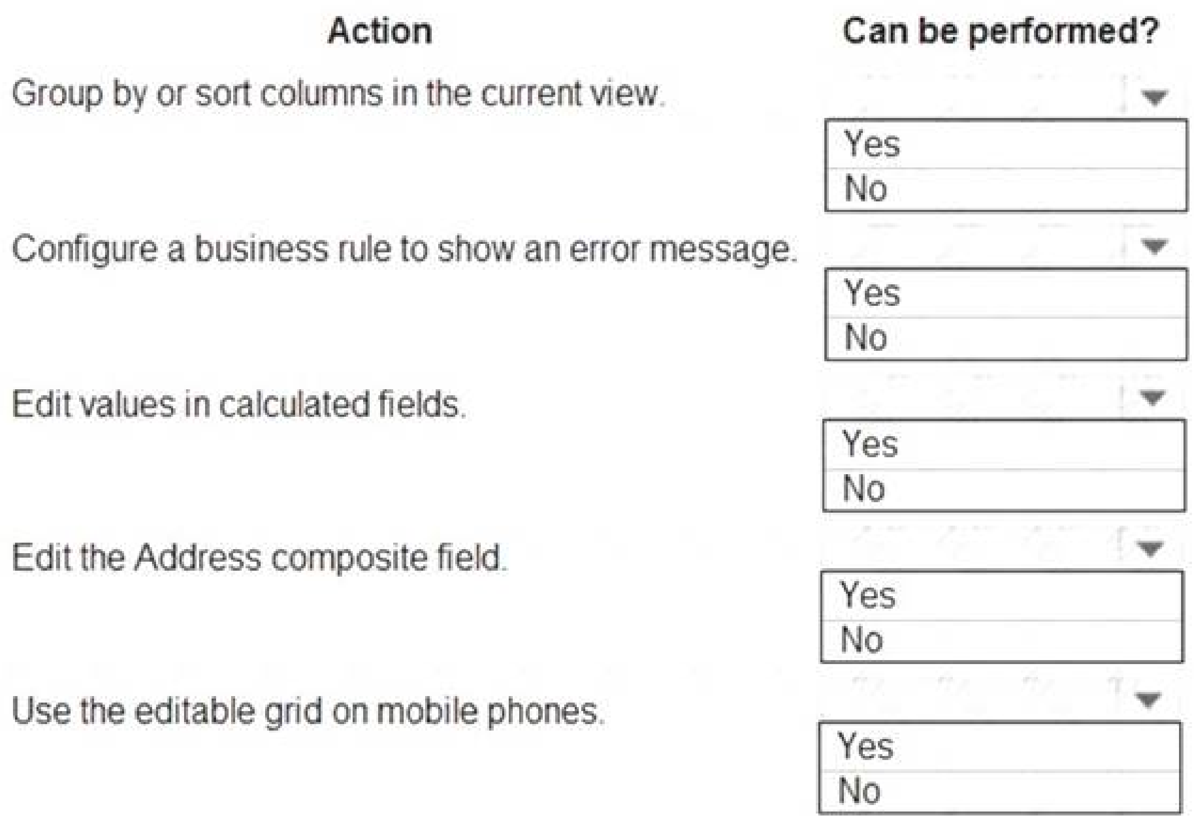
NEW QUESTION 74
- (Exam Topic 3)
A customer tracks events by using a custom entity.
The custom entity includes a custom field for the venue of the events. The customer must be able to display the events by venue in a calendar.
You need to ensure that all events display by venue in the calendar. To which component should you add a control?

A. Form
B. view
C. Field
D. Chart

Answer: B

Explanation:
If you use unified interface, you can display any record in a calendar view via the calendar control.
- Go to Settings->Customization->Customize the System
- Open the configuration for the entity that you want to use the calendar control (Opportunities in our example)
- Click the View tab
- Click “Add Control” and select the calendar control.
- Click the dot for every interface from which you want the calendar control to be available.
Reference:
https://crmtipoftheday.com/1206/view-any-dynamics-365-record-on-a-calendar/

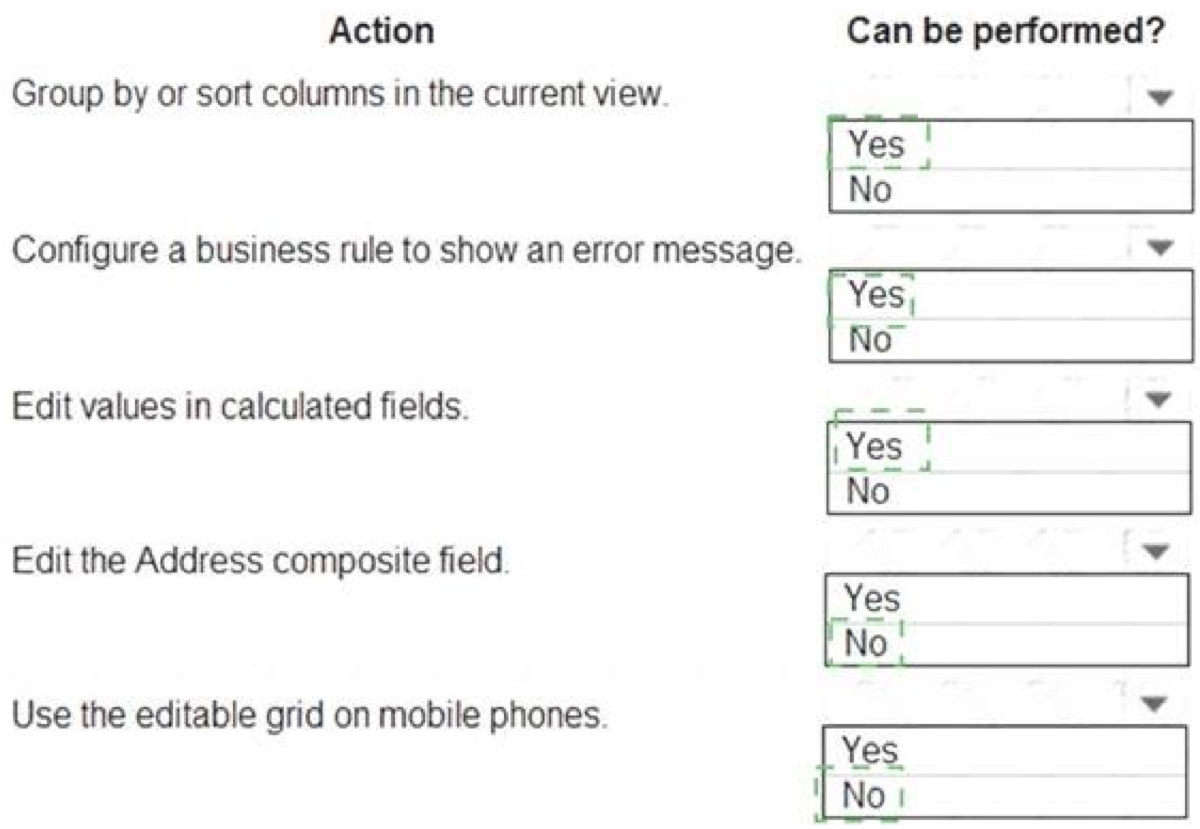
NEW QUESTION 75
- (Exam Topic 3)
You implement an editable grid for the Account entity.
The business team provides the following list of features that they would like you to implement:
- Group by or sort columns in the current view.
- Configure a business rule to show an error message.
- Edit values in calculated fields.
- Edit the Address composite field.
- Use the editable grid on mobile phones.
Which actions can you perform? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



Action	Can be performed?
Group by or sort columns in the current view.	Yes / No
Configure a business rule to show an error message.	Yes / No
Edit values in calculated fields.	Yes / No
Edit the Address composite field.	Yes / No
Use the editable grid on mobile phones.	Yes / No

NEW QUESTION 78
- (Exam Topic 3)
You are embedding a Power Apps visual in a Power BI dashboard. External customers must authenticate to have access to the dashboard. You need to configure the solution.
Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Set the Power BI service to authenticate users.
B. Use a table in the Power BI dashboard.
C. Publish to Power BI Report Server.
D. Set the Power BI service to allow anonymous access.
E. Share the Power Apps visual components with external users.

Answer: AE

Explanation:
Power BI uses Azure Active Directory (AAD) to authenticate users who sign in to the Power BI service, and in turn, uses the Power BI login credentials whenever a user attempts to access resources that require authentication. Users sign in to the Power BI service using the email address used to establish their Power BI account; Power BI uses that login email as the effective username, which is passed to resources whenever a user attempts to connect to data. The effective username is then mapped to a User Principal Name (UPN) and resolved to the associated Windows domain account, against which authentication is applied.
Reference: https://docs.microsoft.com/en-us/power-bi/enterprise/service-admin-power-bi-security

NEW QUESTION 79
- (Exam Topic 3)
On a Contact record, a user creates a Note record that contains the word running.
One week later, the user reports that they cannot find the Contact record associated with the Note record. You need to find the Note record.
Solution: Use Relevance Search to search for the word run. Does the solution meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Relevance Search brings the following benefits:
- Finds matches to any word in the search term in any field in the entity. Matches may include inflectional words, like "stream," "streaming," or "streamed."
- Includes the ability to search documents found in Notes and Attachments on Emails and Appointments Reference:
https://docs.microsoft.com/en-us/power-platform/admin/configure-relevance-search-organization#what-is-releva

NEW QUESTION 80
- (Exam Topic 3)
A company creates a Power Automate cloud flow for a Power Apps app.
The cloud flow must send a daily email that contains a list of year-to-date (VTD) totals. You need to configure the flow.
Which feature should you use?

A. Parallel branch
B. Loop
C. Condition
D. Wait

Answer: C

NEW QUESTION 81
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:

- 0 - 17
- 18 - 25
- 26 - 35
- 36 - 55
- 55 - 100

You need to configure the chatbot to ask a question that can be used to determine the correct age group. Solution: Use Date and time for Identify in the question and then add branches that use conditional logic to
determine the age group.
Does this meet the goal?

A. Yes
B. No

Answer: B

NEW QUESTION 84
- (Exam Topic 3)
A company has a sales application that is supported by an Azure SQL database. You are developing a Power Apps app for use by customer service agents. The app must reference customer data from the sales application. Data in the sales application is constantly changing and must not be replicated in Microsoft Dataverse
Some customer data is considered sensitive. You must protect data for specific fields when users view data in the app.
You need to configure table creation for the app.
How should you configure the app? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point

Requirement	Action
Dataverse table type to create for the referenced customer data.	Create a virtual table. Create an activity table. Create a user-owned table. Create an organization-owned table.
Protect sensitive customer data for specific fields.	Create an alternate key. Create a secured column. Implement input method editor (IME) mode. Set the value of the visible property of the fields to false.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

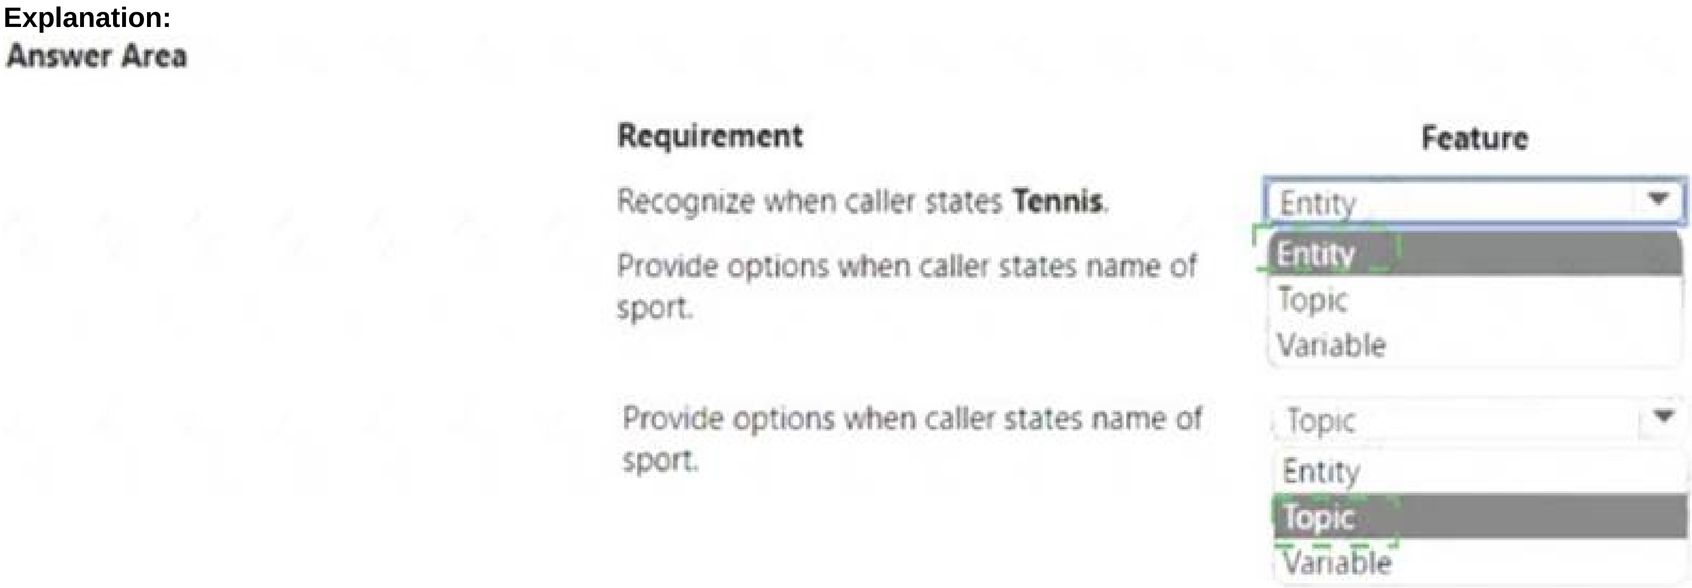
Requirement	Action
Dataverse table type to create for the referenced customer data.	Create a virtual table. Create an activity table. Create a user-owned table. Create an organization-owned table.
Protect sensitive customer data for specific fields.	Create an alternate key. Create a secured column. Implement input method editor (IME) mode. Set the value of the visible property of the fields to false.

NEW QUESTION 85
- (Exam Topic 3)
A company plans to implement a voice-enabled Power Virtual Agents bot. The company has the following requirements for the bot:
• Recognize when a caller states Tennis or any variation of the word.
• Provide options when a caller states the name of a sport. You need to configure the bot.

A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 89
- (Exam Topic 3)
A company creates a bot by using Power Virtual Agents.
The company requires the bot to transfer callers to an agent if the bot is unable to recognize a customers request.
You need to configure the bot for the unrecognized information from the customer. Which feature should you use?

A. Fallback workstream
B. Fallback topic
C. Fallback skill
D. Fallback queue
E. Fallback entity

Answer: B

NEW QUESTION 91
- (Exam Topic 3)
You configure and test a user interface (UI) flow. You plan to run the flow as a scheduled flow.
The UI flow must run on a Windows 10 device. As part of process automation, the UI flow must sign into the Windows 10 device with the credentials for a user account named User1.
You need to ensure that the flow runs during non-peak hours and requires no physical user intervention. What should you do?

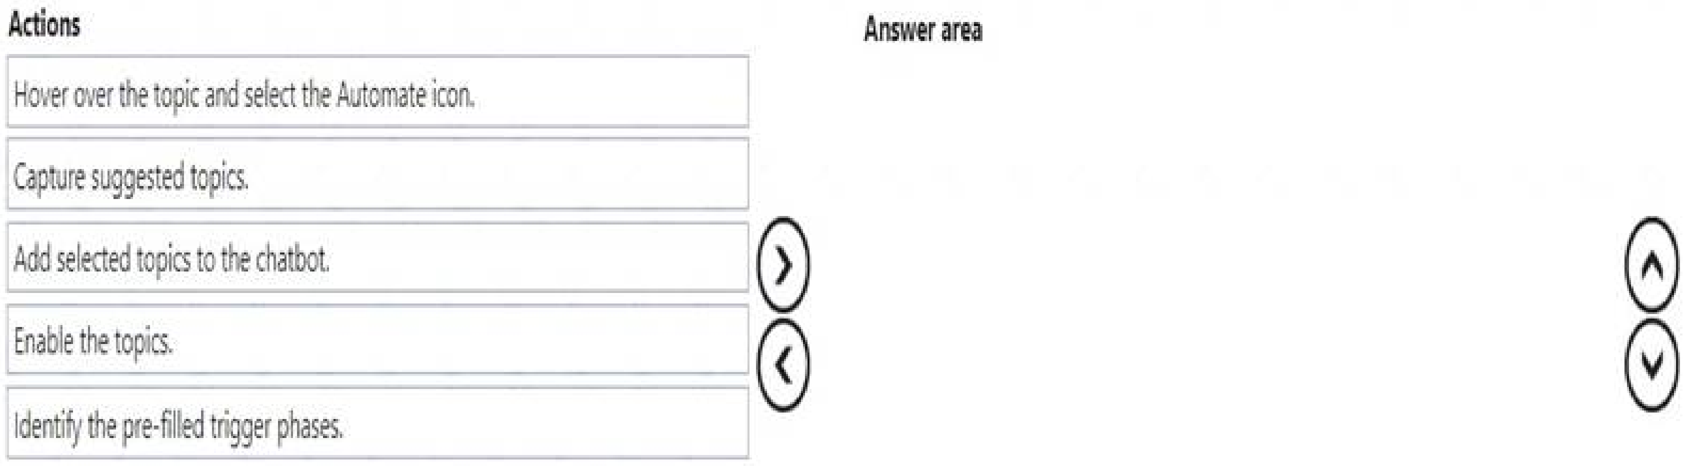
A. Ensure that all user sessions are signed out except for locked user sessions.
B. Ensure that the User1 account has an active user session on the device.
C. Ensure that all user sessions are signed out.
D. Ensure that there are no active user sessions on the device.

Answer: D

Explanation:
Reference:
https://docs.microsoft.com/en-us/power-automate/ui-flows/run-ui-flow

NEW QUESTION 93
- (Exam Topic 3)
A customer has a support website that includes FAQ pages, knowledge articles, and support content.
You plan to leverage an existing Power Virtual Agents bot to enhance and streamline existing support functionality for the existing support portal.

You need to create topics from existing website content. The process must minimize human errors during topic creation.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
- Select Suggest topics
on the Topics page to extract content from FAQ/support pages or online files.
- Add the suggested topics to your bot.
- Enable the topics.
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-create-topics-from-web

NEW QUESTION 97
- (Exam Topic 3)
You create a parent entity and a child entity. The parent entity has a 1:N relationship with the child entity. You need to ensure that when the owner changes on the parent record that all child records are assigned to the new owner.
You need to configure the relationship behavior type. What should you use?

A. Parental
B. Referential, Restrict Delete
C. Referential
D. Restrict

Answer: A

Explanation:
https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customize/create-and-edit-1n-relationship A parental table relationship is any 1:N table relationship where one of the cascading options in the Parental column of the following table is true.
Graphical user interface, application Description automatically generated

Action	Parental	Not Parental
Assign	Cascade All Cascade User-owned Cascade Active	Cascade None
Delete	Cascade All	RemoveLink Restrict
Reparent	Cascade All Cascade User-owned Cascade Active	Cascade None
Share	Cascade All Cascade User-owned Cascade Active	Cascade None
Unshare	Cascade All Cascade User-owned Cascade Active	Cascade None

Reference:
https://docs.microsoft.com/en-us/powerapps/maker/data-platform/create-edit-entity-relationships

NEW QUESTION 102
- (Exam Topic 3)
You create a new independent software vendor (ISV) solution for a Power Apps app.

The Power Apps solution will be imported into multiple customer environments. The environments will have a large variety of solutions and publishers.
You need to avoid naming conflicts during solution import. Which element should you configure?

A. Package type
B. Configuration page
C. Marketplace
D. Prefix
E. Version

Answer: D

Explanation:
A solution publisher includes a prefix. The publisher prefix is a mechanism to help avoid naming collisions. This allows for solutions from different publishers to be installed in an environment with few conflicts. For example, the Contoso solution displayed here includes a solution publisher prefix of contoso.
Reference: https://docs.microsoft.com/en-us/power-platform/alm/solution-concepts-alm

NEW QUESTION 105
- (Exam Topic 3)
You use Power Bl Desktop to configure Power Bl reports and dashboards.
You need to create a canvas app that displays account information and include the app in a Power Bl report. Which three actions should you perform? Each correct answer presents part of the solution.
NOTE Each correct selection is worth one point.

A. Publish the report to the Power Bl service.
B. Connect to Common Data Service from Power Bl Desktop.
C. Connect Common Data Service from Power Bl Deskto
D. Selected required fields from the Accounts table.
E. From the Power Apps Insert menu, add a Power Bl
F. From the Power Bl Desktop menu, insert a Power Apps visual and include the required fields in the Power Apps data.

Answer: CDE

NEW QUESTION 106
- (Exam Topic 3)
You modify a model-driven app for a bicycle repair help desk. The model-driven app is for help desk users when customers have an issue with their bicycle.
After you add a custom table named bicycle, you configure the table for Microsoft Dataverse search. The table will contain information from callers about their bicycles. The account table is related to the custom table. Contact information is brought over to the custom table.
You add the following columns to the table:
- Bicycle type
- Tire brand
- Special equipment

Users must be able to perform the following types of searches:
- Search for all customers who have a bicycle type of Contoso and live in Florida.
- Search all tables for any record that contains the word broken.
- You need to decide which type of search will give you the results desired.

Which search should you configure? To answer, drag the appropriate search types to the correct requirements. Each search type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

A. Mastered
B. Not Mastered

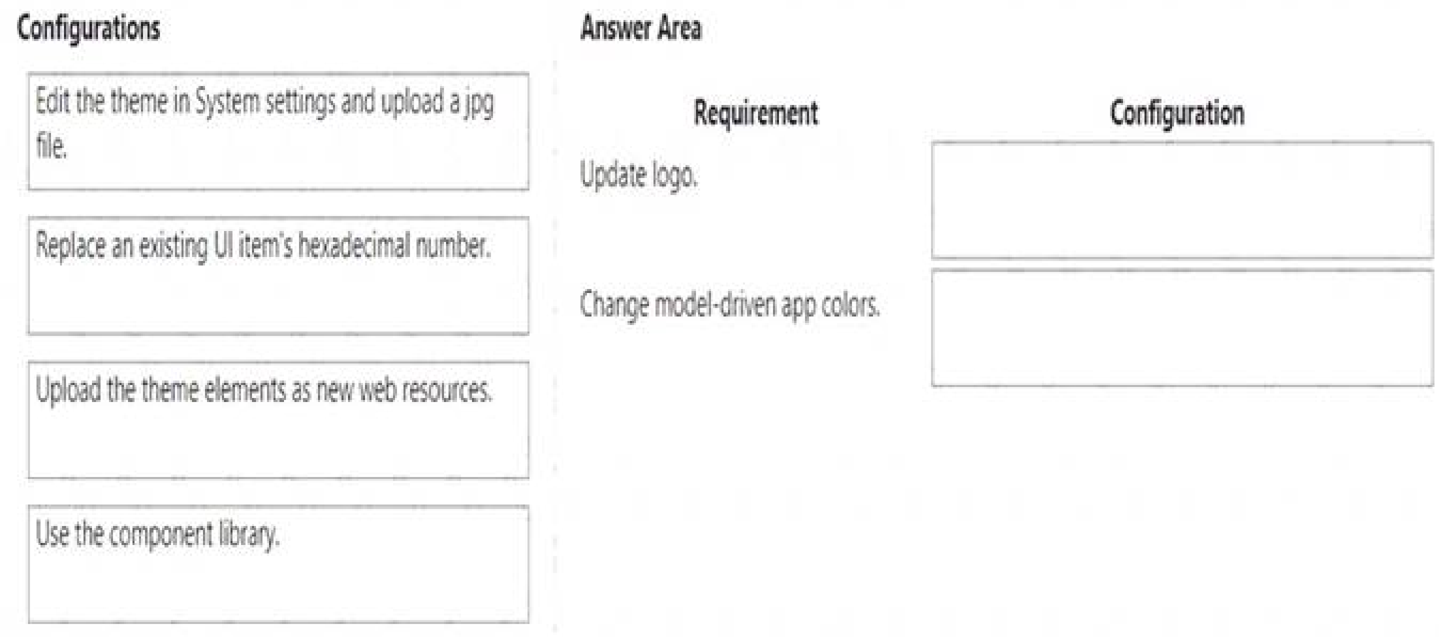
Answer: A

Explanation:
Text Description automatically generated
Box 1: Advanced find
Operators for advanced search: Lets you use simple Boolean operators in your search term and craft the query to get the results you want.
Box 2: Dataverse search
Dataverse search helps you quickly find what you're looking for. It delivers fast and comprehensive results across multiple tables in a single list, sorted by relevance.
Reference: https://docs.microsoft.com/en-us/power-apps/user/quick-find https://docs.microsoft.com/en-us/power-platform/admin/configure-relevance-search-organization

NEW QUESTION 109

- (Exam Topic 3)
You are customizing a model-driven app for a company. You create a Theme template to ensure the company logo and colors are properly used within these apps.
The theme must meet the following requirements:
- Updated to add the logo
- Downloaded by the makers to create the app

You need to configure the assets. To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

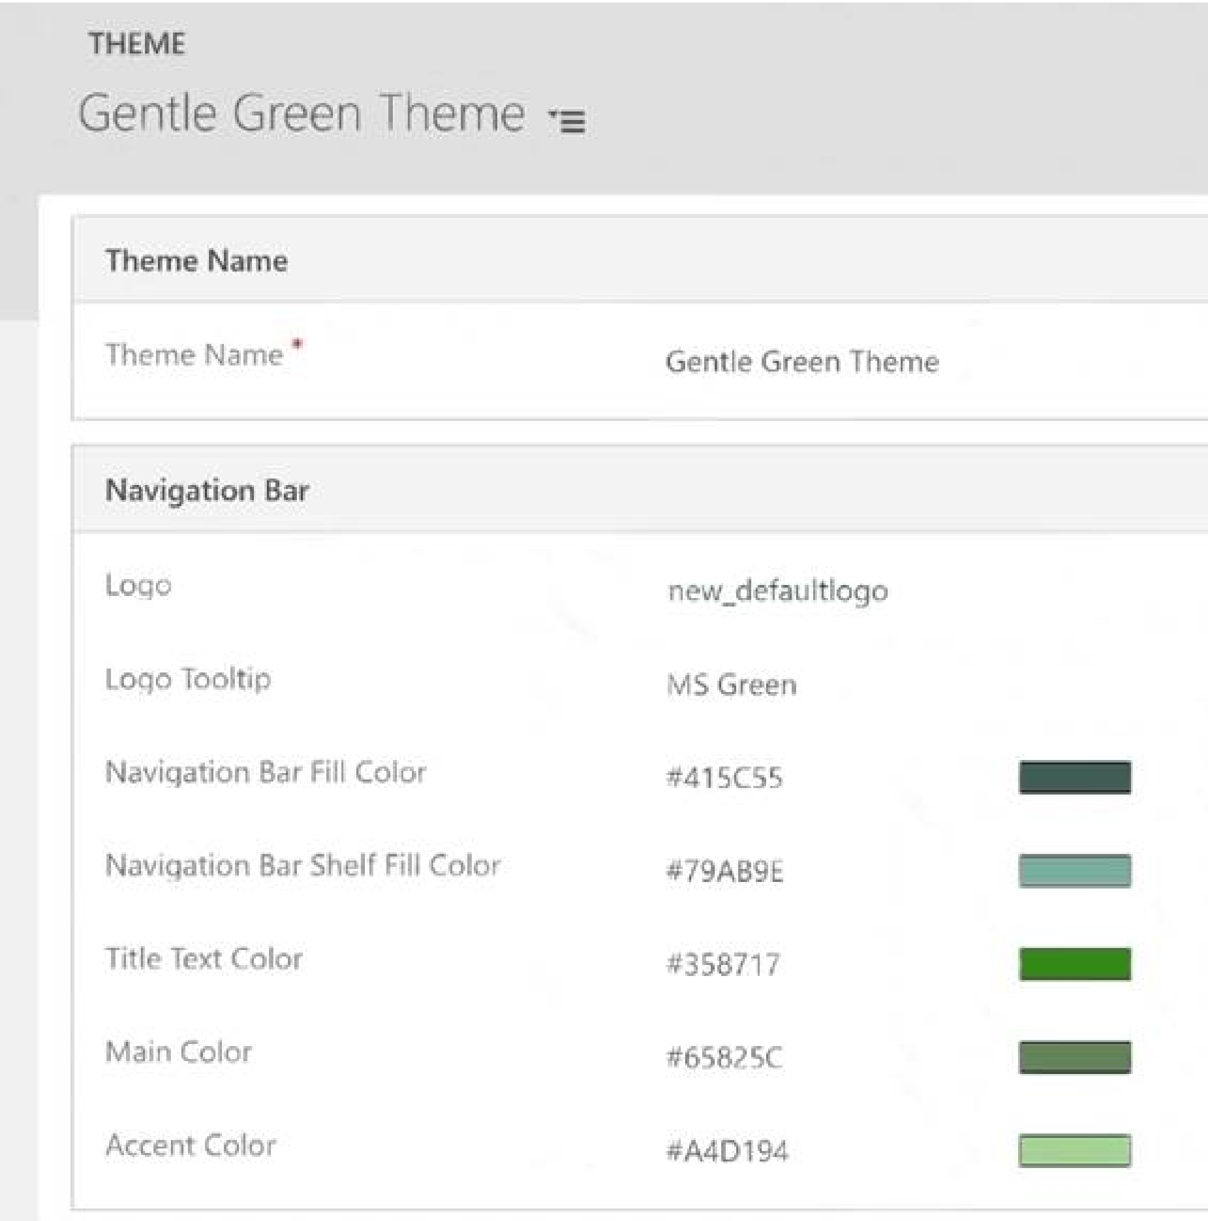


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Upload the theme elements as new web resources.
Each type of icon is stored as a web resource. Create a web resource first and then set the icons to use them. Alternatively, you can add the icon by creating a new web resource when you define the table properties.
Box 2: Replace an existing UI item's hexadecimal number. Copy and alter the existing theme
The easiest and quickest way to create a new theme is to clone and alter an existing theme. Then save, preview, and publish it.
- Sign in to Power Apps, select Settings icon (upper right), and then select Advanced settings.
- Select Customizations, and then select Themes.
- Under All themes, select the theme you want to clone, such as the CRM Default Theme. Select Clone on the command bar.
- Replace an existing UI item's hexadecimal number, such as the Title Text Color, with the hexadecimal value that represents the color you want.

For example, the CRM Default Theme was cloned and changed using mostly varying shades of green color. The following screenshots show the new colors for navigation and highlighting. A custom logo was also added that will appear in the upper left corner of an app.



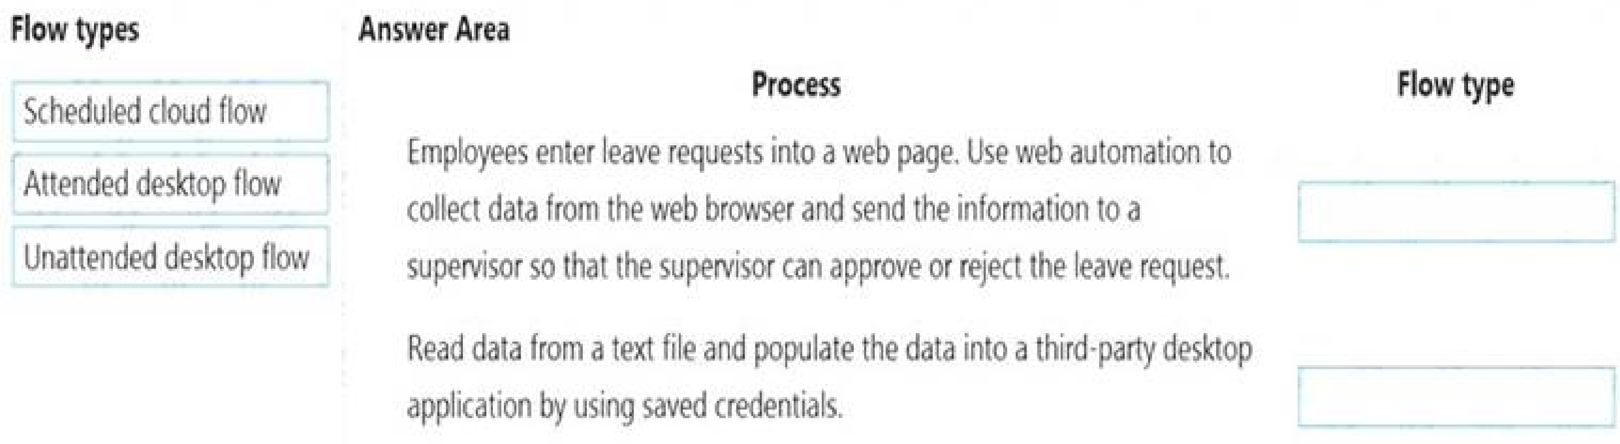
Reference:
https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/create-themes-organization-branding

NEW QUESTION 112
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You administer the Microsoft 365 and Power Platform environments for Contoso, Ltd. The company has a model-driven app that is used to track customer interactions with employees. The app uses standard table types for customers. A user named Elisabeth Rice signs in to the app by using the following sign in name: Elisabeth.Rice@contoso.com.
After marriage, Elisabeth changes her legal name to Elisabeth Mueller.
You need to update the sign in name for the user without losing any application history. Solution: Change Elizabeth's username in the user record for the app.
Does the solution meet the goal?

A. Yes
B. No

Answer: A

NEW QUESTION 115
- (Exam Topic 3)
You are examining several processes to determine if you can automate the processes by using Power Automate.
The processes must run without human intervention when possible.
You need to determine which flow type should be used for each process.
Which flow type should you use? To answer, drag the appropriate processes to the correct flow types. Each process may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

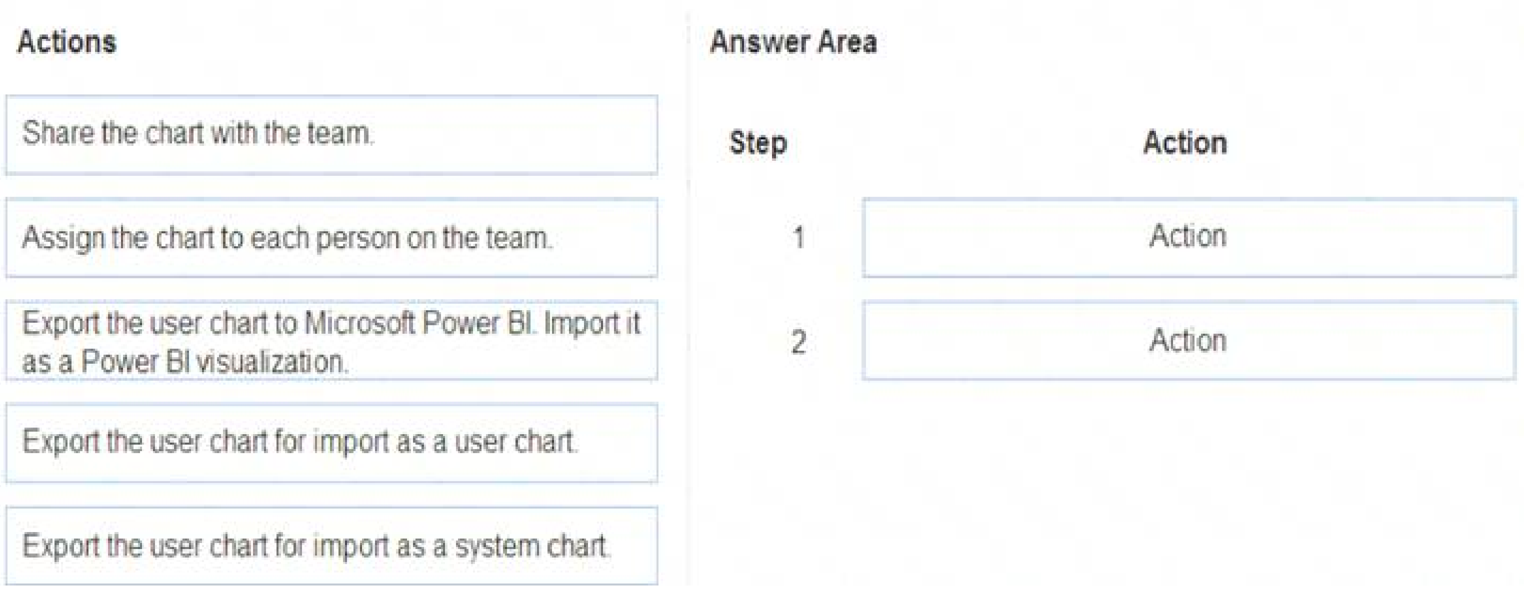


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Text Description automatically generated
Box 1: Attended desktop flow
Desktop flows are used to automate tasks on the Web or the desktop.
To run an attended desktop flow, you need to have an active Windows user session that matches the name of the user configured for your connection.
Note: Web applications are critical components of most organizations, and they are commonly used to access data from servers.
Most CRM and ERP platforms run through web browsers, while the most popular business productivity tools are web services. Web applications are unquestionably an integral part of the technological infrastructure of most companies.
To provide automation solutions for these applications, Power Automate Desktop supports all major browsers through its web automation actions.
Box 2: Unattended desktop flow.
Unattended desktop flows are best for applications that do not need human supervision. References:
https://docs.microsoft.com/en-us/learn/modules/pad-web/1-introduction https://docs.microsoft.com/en-us/power-automate/desktop-flows/run-pad-flow

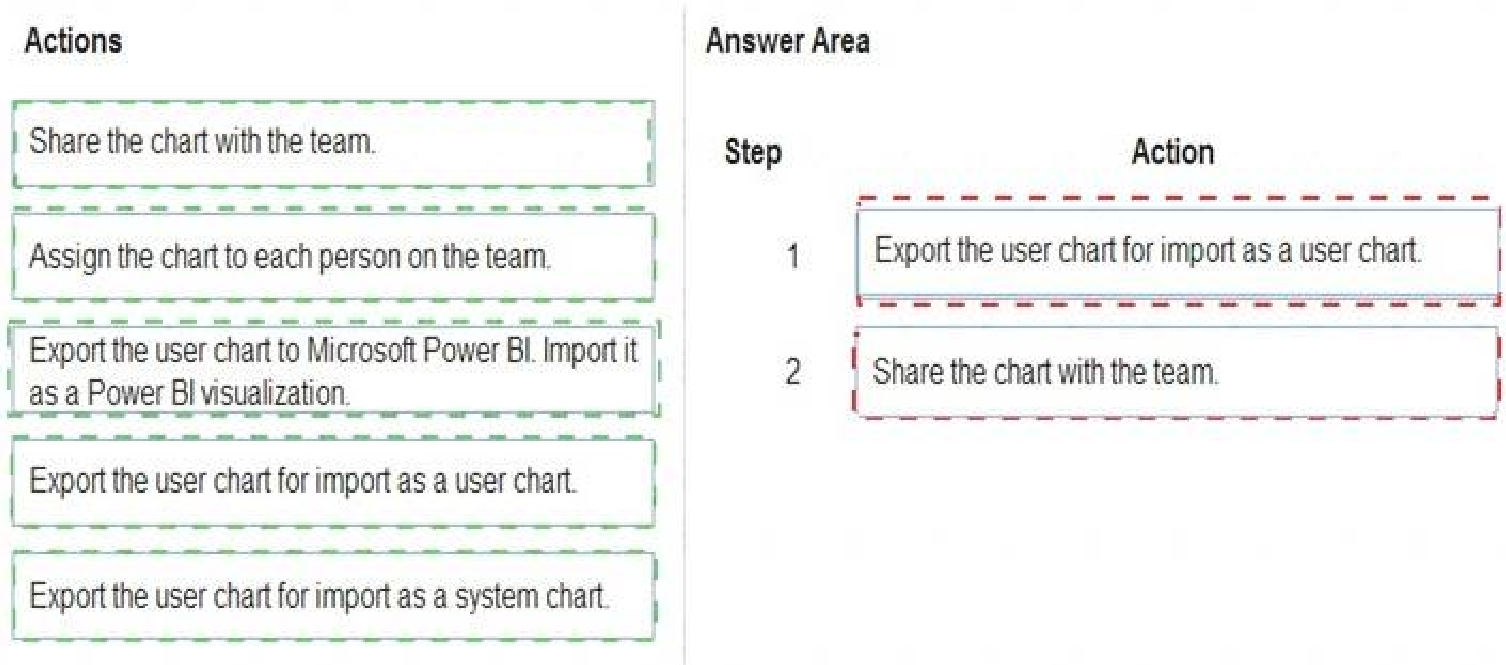
NEW QUESTION 120
- (Exam Topic 3)
You are a Dynamics 365 Customer Service developer. A salesperson creates a chart.
You need to ensure that the chart is available to all users on the team.
Which actions should the salesperson perform? To answer, drag the appropriate actions to the correct users. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 122
- (Exam Topic 3)
You are designing an app for a bank.
You must create entities for the app and configure relationships between entities:

Entity	Requirements
LoanApplicant	This entity represents a person who is applying for a loan. The entity must contain an attribute named Email. This attribute must provide look-up for the name of the applicant.
Loan	This entity represents a loan application. Loan applicants may apply for one loan per application. Loan applicants may have more than one active application.
Property	This entity represents the property that the applicant intends to purchase.

Which relationship types should you use? To answer, drag the appropriate relationship types to the correct requirements. Each relationship type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Relationship types

- 1 : N
- N : N
- N : 1

Answer Area

Requirement	Relationship type
The email attribute of the Loan Applicant entity must provide a look-up to the contact name and email.	
Loan applicants can apply for one type of loan per application. Applicants can have more than one application.	
Loans must be applied for for a single property.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Text Description automatically generated
Box 1: N:1
You add a lookup column with a many-to-one relationship.
Box 2: N:N
Box 3: N:1
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/data-platform/data-platform-entity-lookup

NEW QUESTION 127
- (Exam Topic 3)
A company plans to create a Power Virtual Agents chatbot. The bot has the following requirements:
• Prompt for a location of the customer and the call must be routed to a support agent for the location.
• Transfer support calls at each location to a support bot that uses the Bot Framework. You need to configure the bot.
Which components should you use? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct select is worth one point.

Components

- Variables
- Skills
- Topics
- Entities

Answer Area

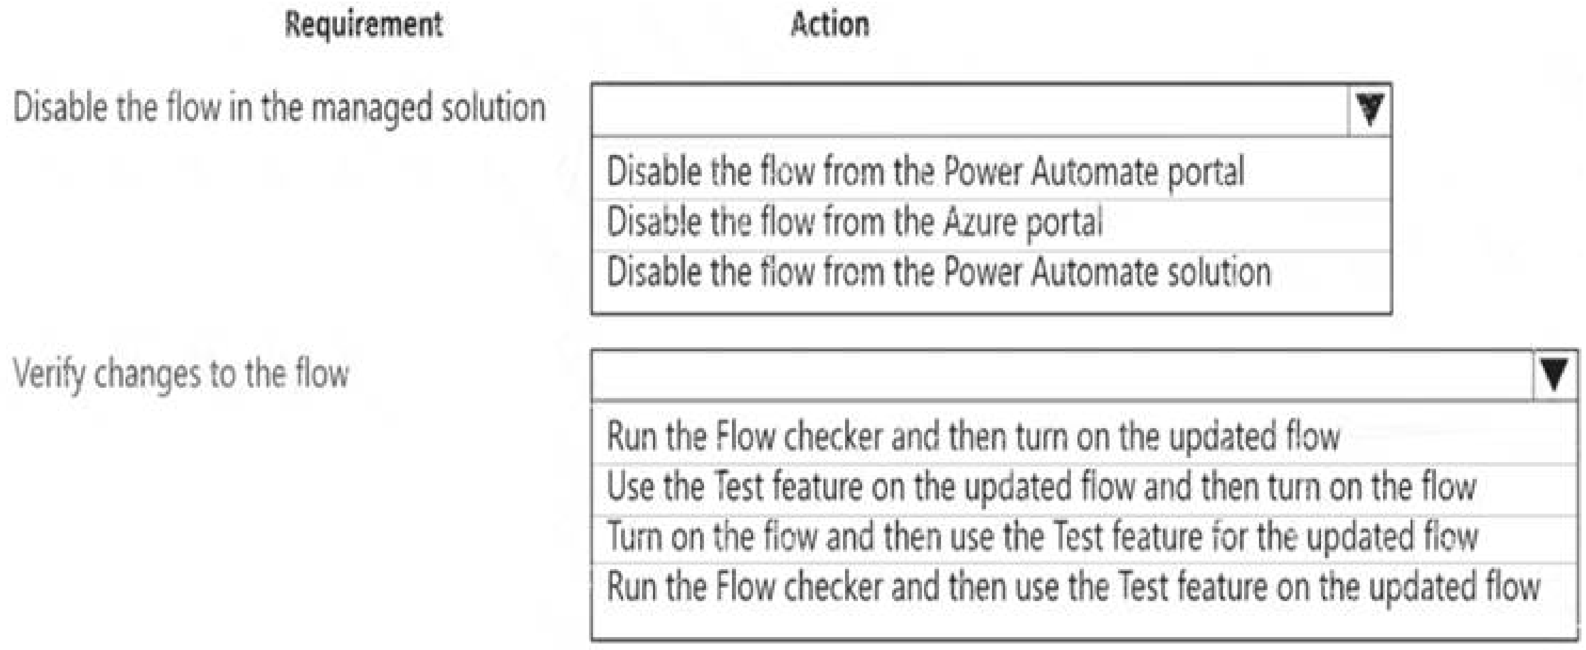
Requirement	Component
Route to location.	
Route to support bot.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 130
- (Exam Topic 3)
You create a Power Automate flow as part of a managed solution. The flow alerts users when files are uploaded to a SharePoint location.
Files are uploaded to SharePoint at a much higher rate than expected. Users report that they receive too many notifications about uploaded files.
You need to stop the flow and correct the issue.
What should you do? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated
Reference:
https://docs.microsoft.com/en-us/power-automate/edit-solution-aware-flow https://docs.microsoft.com/en-us/power-automate/error-checker

NEW QUESTION 131
- (Exam Topic 3)
You are using Power BI to build a dashboard for a company.
You must make the dashboard available to a specific set of users, including employees and five external users. The number of employees that require access to the dashboard varies, but usually less than 100. Employees and external users must not be permitted to share the dashboard with other users.
You need to share the dashboard with the employees and external users.
Which three actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Create a dynamic distribution lis
B. Add all users to the distribution group and use the list to share the dashboard.
C. Sign into the Power BI servic
D. Open the dashboard and select Share.
E. Enter the individual email address of internal and external users.
F. Sign into Power BI Deskto
G. Open the dashboard and select Share.
H. Clear the Allow recipients to share your dashboard (or report) option.
I. Create a distribution grou
J. Add all users to the distribution group and use the list to share the dashboard.

Answer: BEF

Explanation:
Reference:
https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-share-dashboards

NEW QUESTION 136
- (Exam Topic 3)
You plan to implement Microsoft Dataverse.

You must track changes for two columns in the Account table. You must maintain a historical log of changes for the two columns and track only what is necessary.
You configure the appropriate organization settings.
You need to configure the system to track changes for the two columns.
Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Enable auditing for the Account table.
B. Enable auditing for the two specific columns.
C. Enable change tracking for the Account table.
D. Enable change tracking for the two specific columns.

Answer: AB

Explanation:
By setting the IsAuditEnabled property of a table's definition and the IsAuditEnabled property of each desired column's definition to true, data changes to records of those tables can be logged by the platform.
Note: There are three levels where auditing can be configured: organization, table, and column. The organization level is the highest level, followed by the table level, and finally the column level. For column auditing to take place, auditing must be enabled at the column, table, and organization levels. For table auditing to take place, auditing must be enabled at the table and organization levels.
Reference:
https://docs.microsoft.com/en-us/powerapps/developer/data-platform/configure-entities-attributes-auditing

NEW QUESTION 139
- (Exam Topic 3)
You create a JavaScript web resource named MyBusinessLogic. The code it contains uses functionality from a third-party JavaScript library.
You notice that an independent software vendor (ISV) solution uses the same third-party library in their managed solution.
You plan to deploy your solution to other environments by using a managed solution. The ISV solution might not be installed in the other environments.
You need to package the solution for deployment
What are two ways to achieve this goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Create a new JavaScript web resource by using the code from the third-party librar
B. Add the new JavaScript web resource along with MyBusinessLogic to the solution.
C. Add a copy of the JavaScript library from the ISV to the solution along with MyBusinessLogic.
D. Add the code from the third-party JavaScript library to MyBusinessLogi
E. Add MyBusinessLogic to the solution.
F. Add only the third-party JavaScript web resource to the solution.

Answer: AC

Explanation:
Web resources in model-driven apps.
Web resources are virtual files that are stored in the Microsoft Dataverse database and that you can retrieve by using a unique URL address.
Capabilities of web resources.
Web resources represent files that can be used to extend the Dataverse web application such as html files, JavaScript, and CSS, and several image formats.
Reference: https://docs.microsoft.com/en-us/power-apps/developer/model-driven-apps/web-resources

NEW QUESTION 141
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:
- 0 - 17
- 18 - 25
- 26 - 35
- 36 - 55
- 55 - 100

You need to configure the chatbot to ask a question that can be used to determine the correct age group.
Solution: Use multiple choice for Identify in the question and create options that represent of the age groups. Does this meet the goal?

A. Yes
B. No

Answer: B

NEW QUESTION 144
- (Exam Topic 3)
You must create a new entity to support a new feature for an app. Entity data will be transactional and will be associated with business units.
You need to configure entity ownership. Which entity ownership type should you use?

A. user or team owned
B. organization-owned
C. none
D. business-owned

Answer: A

NEW QUESTION 149
- (Exam Topic 3)
You have a canvas app that contains the following text input fields: Id, FirstName, LastName. The app also has a button named Button1.
The OnSelect property for Button1 contains the following expression: Collect(People, {Id:Id.Text, FirstName:FirstName.Text, LastName:LastName.Text})
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Statement	Yes	No
The People collection is automatically created if it does not already exist.	○	○
When Button1 is pressed, if a record with the current value of Id.Text already exists in the People collection, the values for FirstName and LastName are updated.	○	○
If you update the record in the Collection function to iclude the value from a new field named Age, it will result in an error.	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated
Box 1: Yes
If the data source doesn't already exist, a collection is created. Box 2: No
Note: The Collect function adds records to a data source. The items to be added can be:
- A single value: The value is placed in the Value field of a new record. All other properties are left blank.
- A record: Each named property is placed in the corresponding property of a new record. All other properties are left blank.
- A table: Each record of the table is added as a separate record of the data source as described above. The table isn't added as a nested table to a record. To do this, wrap the table in a record first.

Box 3: No Reference:
https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/functions/function-clear-collect-clearcollect

NEW QUESTION 154
- (Exam Topic 3)
You have a form that displays a custom field from an entity.
A customer wants to restrict users from filtering on the custom field. You need to prevent users from filtering the field in Advanced Find. What should you modify?

A. Fields in the Edit Filter Criteria option of the Quick Find view
B. the Field Security field on the Field Properties form
C. a searchable field on the Field Properties form
D. Fields in the Add Find Columns option of the Quick Find view

Answer: C

Explanation:
Reference:
https://community.dynamics.com/365/b/dynamics365apps/posts/kb-understanding-dynamics-365-field-ssearcha

NEW QUESTION 159
- (Exam Topic 3)
You are designing a Power Virtual Agents chatbot.
The chatbot must be able to maintain customer information if the conversation topic changes during a dialog. You need to configure variables to store customer name and email address.
Which type of variable should you create?

A. session
B. topic
C. bot
D. slot

Answer: C

Explanation:
By default, a variable's value can only be used in the topic where this variable gets created. However, you might want the bot to use the same value across topics. This means the bot can remember the necessary context when a conversation spans multiple topics. In some systems, these types of variables are known as global variables. In Power Virtual Agents, these variables are called bot variables, because they apply across the entire bot.
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/authoring-variables-bot

NEW QUESTION 162

- (Exam Topic 3)
You attempt to deactivate several currencies in a Microsoft Dataverse environment. You are not able to deactivate one of the currencies.
You need to determine why you cannot deactivate the currency.
What is the reason?

A. You are not the currency record owner.
B. The currency is used by an active business process.
C. The currency is the base currency.
D. The currency is used by another record.

Answer: C

Explanation:
Reference:
https://docs.microsoft.com/en-us/powerapps/developer/data-platform/org-service/web-service-error-codes https://docs.microsoft.com/en-us/power-platform/admin/manage-transactions-with-multiple-currencies

NEW QUESTION 164
- (Exam Topic 3)
A company creates a canvas app.
The app requires near real-time data from an accounting system that resides in a customers data center. You need to implement a solution for the app.
What should you create?

A. Azure DevOps pipeline
B. On-premises data gateway
C. Power Pages
D. Data integration project

Answer: B

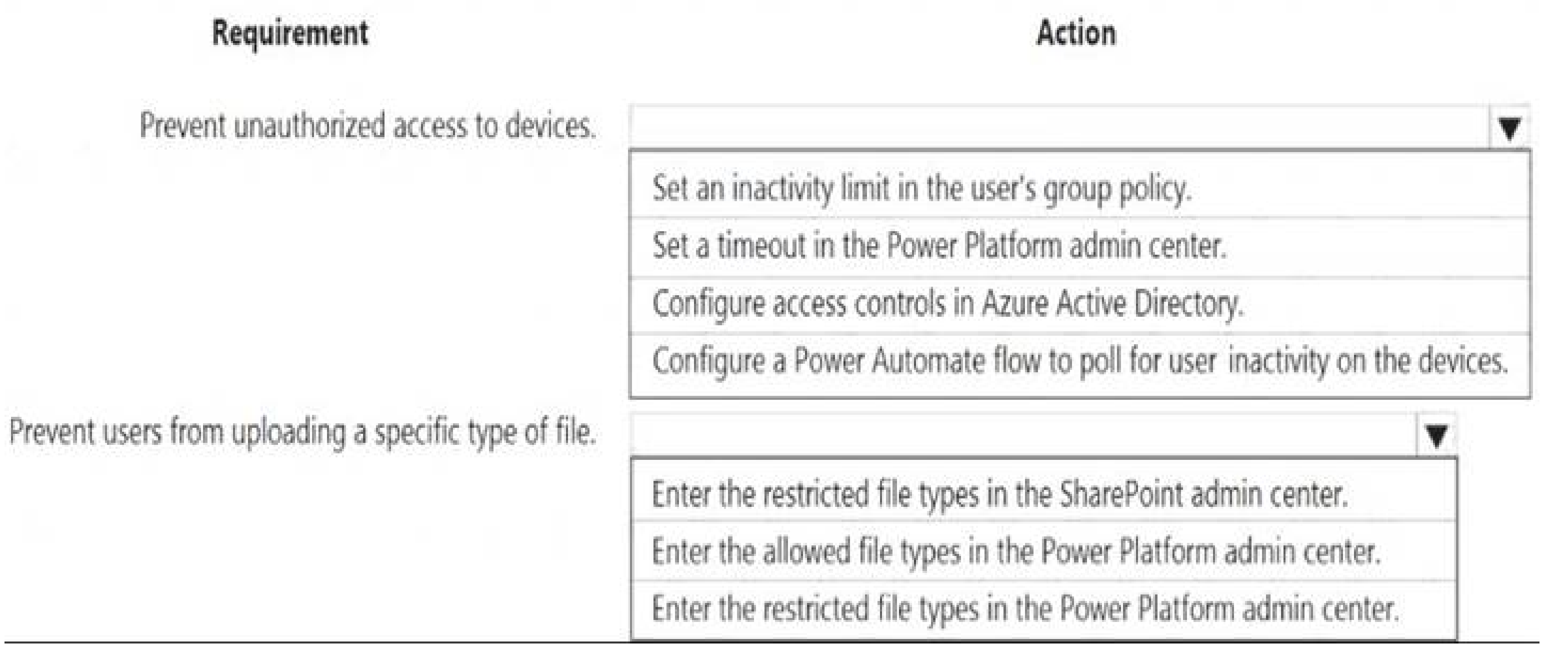
NEW QUESTION 168
- (Exam Topic 3)
You are creating a business rule to implement new business logic.
You must apply the business logic to a canvas app that has a single screen named Screen1. You need to configure the scope for the business rule.
Which scope should you use?

A. All Forms
B. Entity
C. Screen1
D. Global

Answer: B

Explanation:
Note: Some terminology has changed. Entity is now Table. If you're building a Canvas app, you must use table (entity) as the scope.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-create-business-rule

NEW QUESTION 173
- (Exam Topic 3)
A company deploys several model-driven apps. The company uses shared devices in their warehouse. The devices are always powered on. Users log on to the devices and then launch the apps to perform actions.
Unauthorized users recently uploaded several files after another user failed to log out of a device. The
company needs to prevent these incidents from occurring in the future.
You need to configure the solution to prevent the reported security incidents. What should you do? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

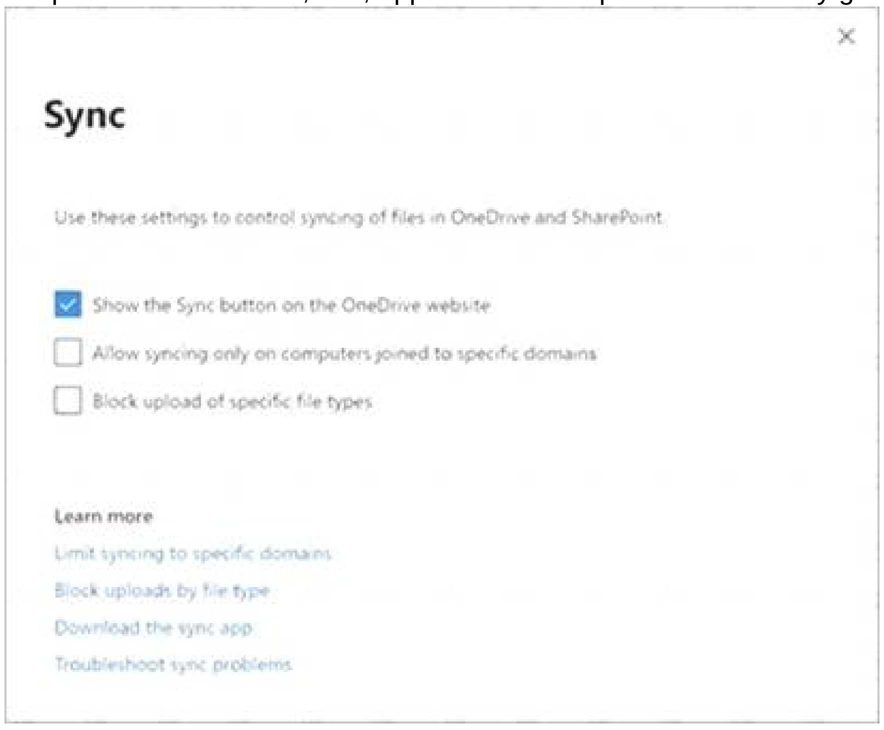
Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated
Box 1: Set a timeout in the Power Platform admin center.
To enforce users to reauthenticate after a pre-determined period of time, admins can set a session timeout for their individual environments. Users can only remain signed in the application for the duration of session. The application signs out the user when the session expires. Users need to sign in with their credentials to return to customer engagement apps.
Note: Configure session timeout
- In the Power Platform admin center, select an environment.
- Select Settings > Product > Privacy + Security.
- Set Session Expiration and Inactivity timeout. These settings apply to all users. Incorrect:

Configure inactivity timeout
- In the Power Platform admin center, select an environment.
- Select Settings > Product > Privacy + Security.
- Set Session Expiration and Inactivity timeout. These settings apply to all users. Box 2: Enter the restricted file types in the SharePoint admin center.

To block uploading of specific file types
- Go to the Settings page of the new SharePoint admin center,
- Select Sync.

Graphical user interface, text, application Description automatically generated



- Select the Block upload of specific file types check box.
- Enter the file name extensions you want to block, for example: exe or mp3.
- Select Save.

Reference:
https://docs.microsoft.com/en-us/power-platform/admin/user-session-management https://docs.microsoft.com/en-us/onedrive/block-file-types

NEW QUESTION 176
- (Exam Topic 3)
You are designing a Power Virtual Agents chatbot.
You observe that the environment you plan to use does not appear as an option in the Power Virtual Agents user interface.
You need to ensure that you can create the chatbot in the environment that you want to use.
What should you do?

A. Create an environment in a supported region.
B. Convert the environment to a sandbox environment.
C. Change the region for the environment.

Answer: A

Explanation:
The environment doesn't show up in the drop-down menu of Power Virtual Agents
Your environment might not show up in the drop-down menu due to one of the following:
The environment doesn't have a database created. To resolve this issue, go to admin.powerplatform.com to create a database in your environment.
The environment is created in an unsupported region.
Reference: https://docs.microsoft.com/en-us/power-virtual-agents/environments-first-run-experience

NEW QUESTION 179
- (Exam Topic 3)
You are creating a new business process flow to qualify leads.
You create an action. The action is not available inside the Action Step. You need to make the action available to the Action Step.
Which two steps must you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Activate the action.
B. Select Run as an on-demand process
C. Add at least one step to the action.
D. Ensure that the entity for the action matches the corresponding entity for the business process flow stage.

Answer: CD

Explanation:
Reference:
https://docs.microsoft.com/en-us/business-applications-release-notes/april18/microsoft-flow/add-action-business

NEW QUESTION 183
- (Exam Topic 3)
You use Power BI Desktop to configure Power BI reports.
You need to create a canvas app that displays user account information and include the app in a Power BI report.
Which three actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. From the Power Apps Insert menu, add a Power BI tile
B. From the Power BI Desktop menu, insert a Power Apps visual and include the required fields in the Power Apps data
C. Publish the report to the Power BI service
D. Connect to Common Data Service from Power BI Desktop

Answer: BCD

Explanation:
Step 1 (B): Here's how we embed PowerApps into a Power BI report:
- Download and login to the Power BI desktop application
- Click on (…) and select "Import from the marketplace."

Step 2: Open Power BI desktop and use "Get data" to connect with the Common Data Service data source. Step 3: Publish the report to Power BI service.
Reference:
https://purple.telstra.com/blog/powerbi-integration-with-powerapps

NEW QUESTION 185
- (Exam Topic 3)
You have a canvas app that allows users to view, select and purchase products. The app uses a Gallery control to display products and checkboxes that allow users to select products.
When users select items from the product catalog, they move to a different screen to complete a purchase. Users must be able to clear all product selections when they click the button.
You need to configure the button. What should you do?

A. Use the Reset (Control) formula and pass the gallery control as a parameter to the Reset formula.
B. Use the Reload(control) formula and pass the gallery control as parameter to the Reload formula.
C. Use the ForAall( ) function to iterate through each item of the Gallery and clear user selections.
D. Set the OnCheck value to populate a collection and the OnUncheck value to remove the item from the collectio
E. Clear the collection when the user selects the button.

Answer: D

Explanation:
https://debajmecrm.com/quick-tip-resetting-controls-inside-gallery-in-canvas-app/

NEW QUESTION 188
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are a Dynamics 365 Sales administrator for a software company. The sales team wants to attach a large number of supporting documents to customer records, but management does not want to incur the cost of additional storage.
The company does not have any Office 365 application integrations enabled. You need to recommend a storage solution that keeps storage costs low. Solution: Enable OneDrive for Business.
Does this meet the goal?

A. Yes
B. No

Answer: B

NEW QUESTION 193
......
