NEW QUESTION 1

Which Cisco solution should a community college implement to fortify DNS requests?

- A. Umbrella
- B. DNS redundancy
- C. Cisco Secure Email
- D. Duo

Answer: A

Explanation:

Cisco Umbrella is the recommended solution for a community college looking to fortify DNS requests. Cisco Umbrella provides secure DNS-layer protection, blocking malicious domains, IP addresses, and cloud applications before they can reach the network. This helps prevent phishing, malware, and other cyber threats, ensuring a safer online environment for students, faculty, and staff. The solution is cloud-based, making it easy to deploy and manage without requiring additional hardware.

NEW QUESTION 2

What is an important benefit of SMB experiences?

- A. teams should be in the office to be most productive
- B. does not allow for the interaction of multi-vendor collaboration tools
- C. allows a reduction in the number of people responsible for security
- D. by offering integrated solutions that allow SMBs to stay within their budget constraints

Answer: D

Explanation:

An important benefit of SMB experiences is offering integrated solutions that allow SMBs to stay within their budget constraints. SMBs typically have limited resources and need cost-effective solutions that can deliver the necessary functionality without breaking the bank. Integrated solutions help SMBs by combining multiple functions into a single package, reducing the need for multiple vendors and simplifying management.

* 1. Cost-Effectiveness: Integrated solutions are generally more affordable as they bundle multiple functionalities into one, saving on the costs of purchasing and maintaining separate systems.

* 2. Simplified Management: Having an integrated solution means that SMBs can manage their IT infrastructure more easily, reducing the complexity and workload for IT staff.

* 3. Vendor Reduction: By relying on fewer vendors, SMBs can streamline their operations, reduce the need for multiple support contracts, and minimize compatibility issues.

NEW QUESTION 3

By which margin are MSPs expected to grow in the next year?

- A. 9%
- B. 11%
- C. 15%
- D. 17%

Answer: C

Explanation:

MSPs (Managed Service Providers) are projected to grow by a margin of 15% in the next year. This growth is driven by the increasing reliance of businesses on managed services for their IT needs, as well as the ongoing shift towards digital transformation and cloud adoption. The demand for managed services is rising as SMBs look to outsource their IT management to specialized providers to enhance efficiency, security, and performance.

* 1. Market Demand: The growing complexity of IT environments and the need for specialized expertise are fueling the demand for MSPs.

* 2. Digital Transformation: Businesses are increasingly adopting digital tools and cloud services, which MSPs help to manage and optimize.

* 3. Security Needs: With the rise in cyber threats, SMBs are turning to MSPs for robust security solutions.

NEW QUESTION 4

What is a benefit of using Merakii in retail SMB?

- A. quickly troubleshoot issues
- B. decentralized security
- C. manage each store's devices independently
- D. monitor performance after data has been stored in the cloud

Answer: A

Explanation:

One of the key benefits of using Meraki in retail SMBs is the ability to quickly troubleshoot issues. Meraki's cloud-based management platform provides centralized

visibility and control over the entire network, enabling IT administrators to identify and resolve problems efficiently. This rapid troubleshooting capability helps minimize downtime, maintain a high level of customer service, and ensure that the retail operations run smoothly. Additionally, Meraki's intuitive dashboard simplifies network management, making it easier for retail SMBs to manage their IT infrastructure.

NEW QUESTION 5

How are customers who have not spent any money in the last 12 quarters classified?

- A. Renewed Logo
- B. Stable Logo
- C. New Logo
- D. Dormant Logo

Answer: D

Explanation:

Explanation

Customers who have not spent any money in the last 12 quarters are classified as "Dormant Logo." This classification helps businesses identify customers who have become inactive over a significant period. Understanding which customers fall into this category allows companies to develop targeted re-engagement strategies to win back their business. By identifying and addressing the needs of dormant customers, businesses can potentially reactivate these accounts and improve their overall customer retention rates.
